Bid Proposals on other makes and catalogs shall be considered, provided each Bidder states on the face of the Bid Proposal exactly what is being proposed to be furnished or forwards with the Bid Proposal an illustration, or other descriptive matter which shall clearly indicate the character of the article covered by the Bid Proposal.

The County reserves the right to approve as an equal, or to reject as not being an equal, any article the Bidder proposes to furnish which contains major or minor variations from Specifications but which may comply substantially.

**GC-19. MINORITY AND WOMEN BUSINESS ENTERPRISES**

**COOK COUNTY ORDINANCE CHAPTER 34, DIVISION 6, SECTION 34-275 to SECTION 34-303**

**I. POLICY AND GOALS**

- A. It is the policy of the County of Cook to prevent discrimination in the award of or participation in County contracts and to eliminate arbitrary barriers for participation, as both prime and sub-contractors, in such contracts by local businesses certified as Minority Business Enterprises (MBE) and Women-owned Business Enterprises (WBE). In furtherance of this policy, the Cook County Board of Commissioners has adopted a Minority- and Women-owned Business Enterprise Ordinance (the "Ordinance") which establishes a goal of awarding not less than twenty-five percent (25%) of the annual total dollar amount of contracts to certified MBEs and ten percent (10%) of the annual dollar value of all such contracts to certified WBEs.
- B. **The County may set contract-specific goals for each contract, based on the commodities or services specified in this bid document. The MBE/WBE percentages required for this contract are stated in the Special Conditions.** A Bid or Quotation shall be rejected if the County determines that a Bid or Quotation fails to comply with this General Condition, including but not limited to, commitments to achieve for this contract, the MBE/ WBE goals of the contract amount or to include a Petition for Reduction/Waiver documenting why the goals are not attainable despite the contractor's Good Faith Efforts. A Bid or Quotation may be rejected and a new Bid or Quotation may be solicited if the public interest is served thereby. Unless otherwise specified in the Bid or Quotation Documents, for purposes of this GC-19, the contract amount is the amount that has been entered on the Proposal page of the Bid or Quotation Documents.
- C. Except to the extent that a Bid or Quotation includes a Reduction/Waiver request, the contract MBE and WBE participation goals may be achieved by the Bid or Quotation entities' status as a MBE or WBE; by entering into a joint venture with one or more MBEs and/or WBEs; by subcontracting a portion of the work to one or more MBEs and WBEs; by establishing and carrying out a mentor/protégé agreement; by the Indirect Participation of one or more MBEs and WBEs used by the entity submitting a Bid or Quotation in other aspects of its business; or by any combination of the foregoing so long as the Utilization Plan evidences a commitment to the MBE and WBE contract goals set forth in (B) above.
- D. The same Business Enterprise, whether as a contractor, subcontractor or supplier, cannot be utilized as both a MBE and a WBE on the same contract.
- E. To the extent that the Ordinance does not apply to this Bid or Quotation, unless specifically waived in the Bid or Quotation Documents, this GC-19 and the wording of the Ordinance shall apply. If there is a conflict between this GC-19 and the Ordinance or the wording of the Ordinance, the Ordinance or its wording controls.
- F. A Contractor's failure to carry out its commitments in the course of the Contract's performance shall constitute a material breach of the Contract and if such breach is not appropriately cured, may result in the termination of the Contract or such remedy authorized by the Ordinance as the County deems appropriate.

**GC-19 MINORITY AND WOMEN BUSINESS ENTERPRISES**  
**COOK COUNTY ORDINANCE CHAPTER 34, DIVISION 6, SECTION 34-275 to SECTION 34-303**

**II. REQUIRED BID OR QUOTATION SUBMITTALS**

To be considered responsive, a Bid or Quotation shall meet the MBE and WBE goals by submitting a Utilization Plan with the Bid or Quotation, which shall be (1) supported by Letters of Intent from the MBEs and WBEs together with the MBEs/WBEs Letters of Certification, and/or (2) include a written Petition for Reduction/Waiver with the Bid or Quotation supported by documentation of Good Faith Efforts to meet the goals. Failure to submit the documents set forth in (A) and (B) of this Section II in accordance with these guidelines will cause the Bid or Quotation to be considered non-responsive and shall be cause to reject the Bid or Quotation.

**A. MBE/WBE Utilization Plan**

Each Bid or Quotation shall include with the Bid or Quotation a complete Utilization Plan. The Utilization Plan shall list the names, mail and email addresses, telephone number and contact persons of businesses intended to be used as MBEs and WBEs on the Contract. If the entity submitting a Bid or Quotation, or any of its subcontractors, suppliers or consultants, are certified MBEs or WBEs they shall be identified as an MBE or WBE within the Utilization Plan.

**1. Letter(s) of Intent**

Except as set forth below, a Bid or Quotation shall include with its Utilization Plan, Letter(s) of Intent executed by each MBE and WBE included in the Utilization Plan and by the entity submitting the Bid or Quotation, which sets forth that each MBE and WBE intends to perform as a subcontractor, supplier, joint venture partner and/or consultant on the contract. The Letters of Intent must accurately detail the work to be performed by the MBE or WBE firm and the agreed rates and/or prices to be paid.

If the Bid or Quotation does not include all Letter(s) of Intent with its Utilization Plan, such Letter(s) of Intent may be submitted to the Office of Contract Compliance within three (3) business days after the date of the Bid or Quotation Opening. Failure to submit all Letter(s) of Intent as required shall result in the Contract Compliance Administrator's determination that a Bid or Quotation is not responsive and shall be cause to reject the Bid or Quotation.

All commitments made by a Bid or Quotation in its Utilization Plan must conform to those included in the submitted Letter(s) of Intent. The Contract Compliance Administrator reserves the right to request supplemental information regarding the Letter(s) of Intent submitted with a Bid or Quotation and such information shall be furnished. (Reference pages EDS-2 for a format sample of a Letter of Intent)

**2. Letter(s) of Certification**

**COOK COUNTY ORDINANCE CHAPTER 34, DIVISION 6, SECTION 34-275 to SECTION 34-303**

Such Joint Venture Affidavit shall be submitted with the Bid or Quotation along with Letter(s) of Certification.

**B. Reduction/Waiver Petition**

In the event a Bid or Quotation is unable to meet the applicable contract MBE and WBE participation goals, the Bid or Quotation must include a Petition for Reduction/Waiver and submit the Petition with its Bid or Quotation. The Petition for Reduction/Waiver shall be supported with evidence and sufficient documentation to demonstrate the Bid's or Quotation's Good Faith Efforts in attempting to achieve the applicable MBE and WBE goals. If a Bid or Quotation does not include all documentation in support of the Petition with its Bid or Quotation, such documentation must be submitted to the Office of Contract Compliance within three (3) business days after the date of the Bid or Quotation opening.

**III. REDUCTION/WAIVER OF MBE/WBE GOALS**

**A. Granting a Reduction/Waiver Request.**

1. The determination of the adequacy of the Good Faith Efforts to utilize MBEs and WBEs in a Bid or Quotation will be evaluated on the basis of the actions in attempting to achieve MBE and WBE participation goals set forth in the Bid or Quotation. Examples of actions constituting Good Faith Efforts for a Bid or Quotation are set forth within the Ordinance and in the "Petition for Reduction/Waiver of MBE/WBE Participation Goals" contained in the Bid or Quotation Documents.
2. The Contract Compliance Administrator may grant the Petition for Reduction/Waiver based upon the following criteria: (a) sufficient qualified MBEs and WBEs capable of providing the goods or services required by the contract are unavailable despite the good faith efforts of the contractor; (b) the specifications and the reasonable and necessary requirements for performing the contract make it impossible or economically infeasible to divide the contract into sufficiently small tasks or quantities to enable the contractor to utilize MBEs and WBEs in accordance with the applicable goals; (c) the price(s) quoted by any potential MBE or WBE source of goods or services is more than 10% above competitive levels; and (d) any other factor determined to be relevant by the Contract Compliance Administrator.

**B. Denying a Reduction/Waiver Request.**

1. If the Contract Compliance Administrator determines that a Bid or Quotation has not demonstrated adequate Good Faith Efforts to meet the applicable contract MBE and WBE goals, the Contract Compliance Administrator may deny a Petition for Reduction/Waiver and declare the Bid or Quotation non-responsive and recommend rejection of the Bid or Quotation.
2. Failure to undertake and/or to document adequate Good Faith Efforts shall be cause to deny a Petition for Reduction/Waiver. Determination of the adequacy of a Bid's or Quotation's Good Faith Effort will be evaluated on the basis of the Bid's or Quotation's actions as of the date of the Bid or Quotation opening.

Where an enterprise under the Contract was previously considered to be a MBE or WBE but is later found not to be, or work is found not to be creditable toward the MBE or WBE goals as stated in the Utilization Plan, the Contractor shall seek to discharge the disqualified enterprise, upon proper written notification to the Contract Compliance Administrator, and make every effort to identify and engage a qualified MBE or WBE as its replacement. Failure to obtain a MBE or WBE replacement within 30 working days of the Contract Compliance Administrator's written approval of the removal of a MBE or WBE may result in the termination of the contract or the imposition of such remedy authorized by the Ordinance, unless a written Petition for Reduction/Waiver is granted to Contractor allowing Contractor to award the work to a non-MBE or WBE.

**V. NON-COMPLIANCE**

In accordance with 41 U.S.C. § 22, the Contractor agrees that it will not admit any member of or delegate to the United States Congress to any share or part of the Contract or any benefit derived therefrom.

### 2. False or Fraudulent Statements and Claims

- (a) The Contractor recognizes that the requirements of the Program Fraud Civil Remedies Act of 1986, as amended, 49 U.S.C. §§ 3081 et seq and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 C.F.R. Part 31, apply to its actions pertaining to the Contract. Accordingly, by signing the Contract, the Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, or it may make pertaining to the Contract, including without limitation any invoice for its services. In addition to other penalties that may be applicable, the Contractor also acknowledges that if it makes a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986, as amended, on the Contractor to the extent the Federal Government deems appropriate.
- (b) The Contractor also acknowledges that if it makes a false, fictitious, or fraudulent claim, statement, submission, or certification to the County or Federal Government in connection with an urbanized area formula project financed with Federal assistance authorized by 49 U.S.C. § 5307, the Government reserves the right to impose on the Contractor the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307(n)(1), to the extent the Federal Government deems appropriate.

### 3. Federal Interest in Patents

- (a) General. If any invention, improvement, or discovery of the Contractor is conceived or first actually reduced to practice in the course of or under the Contract, and that invention, improvement, or discovery is patentable under the laws of the United States of America or any foreign country, the Contractor agrees to notify County immediately and provide a detailed report.
- (b) Federal Rights. Unless the Federal Government later makes a contrary determination in writing, the rights and responsibilities of the County, Contractor, and the Federal Government pertaining to that invention, improvement, or discovery will be determined in accordance with applicable Federal laws and regulations, including any waiver thereof. Unless the Federal Government later makes a contrary determination in writing, the Contractor agrees that, irrespective of its status or the status of any subcontractor at any tier (e.g., a large business, small business, non-profit organization, Institution of higher education, individual), the Contractor agrees it will transmit to the Federal Government those rights due the Federal Government in any invention resulting from the contract.

### 4. Federal Interest in Data and Copyrights

Examples include, but are not limited to: computer software, engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications, and related information. The term "subject data" does not include financial reports, cost analyses, and similar information incidental to Contract administration.
- (b) Federal Restrictions. The following restrictions apply to all subject data first produced in the performance of the Contract. Except as provided in the Contract and except for its own internal use, the Contractor may not publish or publicly reproduce subject data in whole or in part, or in any manner or form, nor may the Contractor authorize others to do so, without the written consent of the County and the Federal Government, until such time as the Federal Government may have either released or approved the release of such data to the public.

**GC-38 FEDERAL CLAUSES (CON'T.)**

- (c) **Federal Rights In Data and Copyrights.** In accordance with subparts 34 and 36 of the Common Rule, the County and the Federal Government reserve a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, for County or Federal Government purposes, the types of subject data described below. Without the copyright owner's consent, the County and Federal Government may not extend their license to other parties.
- (1) Any subject data developed under the contract or subagreement financed by a federal Grant Agreement or Cooperative Agreement, whether or not a copyright has been obtained; and
  - (2) Any rights of copyright which the Contractor purchases ownership with Federal assistance.
- (d) **Special Federal Rights for Planning Research and Development Projects.** When the Federal Government provides financial assistance for a planning, research, development, or demonstration project, its general intention is to increase public knowledge, rather than limit the benefits of the project to participants in the project. Therefore, unless the Federal Government determines otherwise, the Contractor on a planning, research, development, or demonstration project agrees that, in addition to the rights in data and copyrights set forth above, the County or Federal Government may make available to any third party either a license in the copyright to the subject data or a copy of the subject data. If the project is not completed for any reason whatsoever, all data developed under the project will become subject data and will be delivered as the County or Federal Government may direct. This subsection, however, does not apply to adaptations of automatic data processing equipment or previously existing software programs for the County's use whose costs are financed with Federal transportation funds for capital projects.
- (e) **Hold Harmless.** Unless prohibited by state law, upon request by the County or the Federal Government, the Contractor agrees to indemnify, save, and hold harmless the County and the Federal Government and their officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Contractor of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under the Contract. The Contractor will not be required to indemnify the County or Federal Government for any such liability arising out of the wrongful acts of employees or agents of the County or Federal Government.
- (f) **Restrictions on Access to Patent Rights.** Nothing contained in this section on rights in data will imply a license to the County or Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the County or Federal Government under any patent.
- (g) **Application on Materials Incorporated into Project.** The requirements of Subsections 2, 3, and 4 of this Section do not apply to material furnished by the County and incorporated into the work.

Contractor will deliver or cause to be delivered all documents (including but not limited to all Deliverables and supporting data, records, graphs, charts and notes) prepared by or for the County under the terms of this Agreement to the County promptly in accordance with the time limits prescribed in this Contract, and if no time limit is specified, then upon reasonable demand therefor or upon termination or completion of the Services hereunder. In the event of the failure by the Contractor to make such delivery, then and in that event, the Contractor will pay to County reasonable damages the County may sustain by reason thereof.

The County and the Federal Government will have the right to audit all payments made to the Contractor under this Agreement. Any payments to the Contractor which exceed the amount to which the Contractor is entitled under the terms of this Agreement will be subject to set-off.

The Contractor will keep and retain records relating to this Agreement and will make such records available to representatives of the County and the Federal Government, including without limitation the sponsoring federal agency, other participating agencies, and the Comptroller General of the United States, at reasonable times during the performance of this Agreement and for at least five years after termination of this Agreement for purposes of audit, inspection, copying, transcribing and abstracting.

No provision in this Agreement granting the County or the Federal Government a right of access to records is intended to impair, limit or affect any right of access to such records which the County or the Federal Government would have had in the absence of such provisions.

6. **Environmental Requirements**

- (e) **Preference for Recycled Products.** To the extent practicable and economically feasible and to the extent that it does not reduce or impair the quality of the work, the Contractor agrees to use recycled products in performance of the Contract pursuant to U.S. Environment Protection Agency (U.S. EPA) guidelines at 40 C.F.R. Parts 247-253, which implement section 6002 of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. § 6962.

The Contractor agrees that, absent the Federal Government's express written consent, the Federal Government will not be subject to any obligations or liabilities to any contractor or any other person not a party to the Grant Agreement or Cooperative Agreement between the County and the Federal Government which is a source of funds for this Contract. Notwithstanding any concurrence provided by the Federal Government in or approval of any solicitation, agreement, or contract, the Federal Government continues to have no obligations or liabilities to any party, including the Contractor.

11. Allowable Costs

Notwithstanding any compensation provision to the contrary, the Contractor's compensation under this Contract will be limited to those amounts which are allowable and allocable to the Contract in accordance with OMB Circular A-87 and the regulations in 49 C.F.R. Part 18. To the extent that an audit reveals that the Contractor has received payment in excess of such amounts, the County may offset such excess payments against any future payments due to the Contractor and, if no future payments are due or if future payments are less than such excess, the Contractor will promptly refund the amount of the excess payments to the County.

12. Trade Restrictions

Contractor certifies that neither it nor any Subcontractor:

- (a) is owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms published by the Office of the United States Trade Representative (USTR);

- (c) will procure, subcontract for, or recommend any product that is produced in a foreign country on said list.

Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR 30.17, no Notice-to-Proceed will be issued to an entity who is unable to certify to the above. If Contractor knowingly procures or subcontracts for the supply of any product or service of a foreign country on said list for use on the project, the USDOT may direct, through the County, cancellation of the Contract at no cost to the Government.

Further, Contractor agrees that it will incorporate this provision for certification without modification in each subcontract. Contractor may rely on the certification of a prospective Subcontractor unless it has knowledge that the certification is erroneous. Contractor will provide immediate written notice to the County if it learns that its certification or that of a Subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. Each Subcontractor must agree to provide written notice to Contractor if at any time it learns that its certification was erroneous by reason of changed circumstances. Nothing contained in the foregoing will be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of the Contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code, Section 100

## **Section 5. Specifications (Section S)**

### **A. Type and Application**

Sekuworks has developed the thermal transfer cigarette tax stamp to adhere to a wide variety of surfaces including cellophane and polypropylene.

The Sekuworks cigarette tax stamp is based on thermal transfer technology (heat applied). A layered construction method is utilized, comprising multiple secure materials, providing a high degree of counterfeit deterrence. Layers are as follows:

1. Protective Coating
2. Ink #1
3. Ink #2
4. Ink #3
5. Numbering
6. Ink #4
7. Adhesive

The following are the key aspects of the construction method:

- Thermal stamp construction, by its nature, is a difficult process to create and replicate, as evidenced by the few number of bona fide thermal stamp producers.
- Stamp construction utilizes layering of features as follows:
  - IR upconverting phosphor: Illuminates when subjected to a special light source of 980 nanometers. Audible and/or visual detectors may also be used to detect its presence.
  - UV florescent ink: Illuminates when subjected to special light source of 365 nanometers.
  - Numbering: Each stamp is numbered with ink jet printing. There is also a counter every 300 stamps that shows how many stamps are left on the roll and how many have been used.
  - Microtext / special character(s) / intentional mistakes: Microtext with misspellings or special characters can be included that counterfeiters mis-replicate allowing field investigators with a trained eye to authenticate.
  - Overprinted watermark: This feature is printed during the construction of the stamp and provides a unique background pattern to complicate an attempt to imitate the stamp.
  - Crisp clean print and irregular shapes: We have the ability to provide almost any color and have crisp clean print. Most shapes can be

incorporate into the art. In previous designs the state outline was used in the stamp.

**B. Size, Design and Colors**

We have the ability to provide almost any color and have crisp clean print. Most shapes can be incorporate into the art. In previous designs the state outline was used in the stamp. Sekuworks has the ability to make unique stamp designs very quickly with our in-house design and plate department. We can turn a proof within 24 hours and implement a design change in production in 48 hours/ Sekuworks can add up to 4 unique colors in addition to half tones, tints, shades or tones and all security features required

Sekuworks produces thermal tax stamps of ½" x ½".

The County has the option to customize or change as necessary to meet their need.

**C. Paper**

Sekuworks understands the requirement and our base stock complies. Our base stock is a unique, safety tinted, mill controlled bleached white paper. The manufacturer of our base stock can be provided under confidentiality. Under our NASPO certification and accreditation we account for all the paper used in production which includes spoilage and will supply the State with usage records at the completion of each production run.

Sekuworks will include features in the base paper that will ensure a unique identification to Taxation. These features may include watermarks, UV inks, and / or other distinguishing features.

Sekuworks accounts for all materials used in the production of its security products. This includes full accountability of waste as well. All waste materials are documented and destroyed per NASPO class I requirements. Sekuworks will be happy to provide any waste destruction records to Taxation upon request.

**D. Layout and Packaging**

Product numbering is a core competency of Sekuworks. Many of the security products we produce include serialization. Sekuworks will perform all numbering in accordance with the specifications contained herein.

Sekuworks will use high resolution ink jet printing to provide completely legible numbers, this numbering system will provide for an excellent accounting mechanism to the licensed wholesalers. Sekuworks will print ascending numbers on one margin of the base paper and descending numbers on the other margin. Sekuworks will comply accordingly.

## **E. Protection**

The Sekuworks cigarette tax stamp is based on thermal transfer technology. A layered construction method is utilized, comprising multiple secure materials, providing a high degree of counterfeit deterrence. The following are the key aspects of the construction method:

- Thermal stamp construction, by its nature, is a difficult process to create and replicate, as evidenced by the few number of bona fide thermal stamp producers.
- Sekuworks custom prints the stamp base paper with features unique to the State utilizing “chain of custody” inks and materials.
- Stamp construction utilizes layering of features as follows:
  - IR upconverting phosphor
  - UV florescent ink
  - Numbering
  - Microtext / special character(s) / intentional mistakes
  - Overprinted watermark
- A specific sequence of layering is utilized that can be deconstructed and validated using a microscope. This hidden feature has proven very useful to other Sekuworks’ clients.
- Sekuworks also uses a special taggant pattern that can be validated by field investigators using a special light source.
- Sekuworks intentionally misspells certain words in micro text that counterfeiters mis-replicate. Field investigators are trained by Sekuworks to identify intentional mistakes.

## **F. Production Control**

Sekuworks operates under the scrutiny of NASPO, and has been certified secure at the highest ranking of class I. Please refer to Section 3 for details on the NASPO certification. Sekuworks was built from the ground up as a high security printing facility using patented state of the art manufacturing equipment and processes.

We produce ONLY security documents, stamps, labels and tapes – NO commercial printing. The process of a NASPO certification addresses the following criteria:

- Plant physical security
- Electronic surveillance including motion detectors and cameras
- Fast-response agreement by local law enforcement
- Integrated panic alarming (attack scenario)
- Zoned access controls (card access enforced by zone)
- Strict visitor policy – all visitors by escort only
- Criminal and Financial background checks on all employees
- Drug testing
- Finger printing registered with law enforcement agencies
- Disaster recovery plan
- Contingency plan
- Financial stability statement
- Elaborate housekeeping requirements set
- Numerous other aspects

In addition to the general stipulations required under NASPO, many operational precautions are taken to insure the ultimate security of Taxation's cigarette tax stamps:

- Full accountability of all materials, partially completed and completed cigarette tax stamps.
- As a course of normal business, all Taxation's work is segregated from other Sekuworks' customers.
- Raw materials are stored in controlled-limited access areas.
- Partially completed and completed work is stored in our 18,000 cubic foot, class 5 vault. Class 5 is suitable for bank notes.(highest security)
- Manufacturing techniques, formulas, and processes are kept secret and made available on a need-to-know basis.
- Employees follow a strict policy on the handling of materials, work-in-process, and completed work.
- Printing plates and tooling are kept in the vault when not in use.

## **G. Stamp Machine**

Sekuworks has performed testing of its thermal transfer cigarette tax stamp on equipment currently in use by Ohio's licensed wholesale cigarette dealers. Testing was carried out over a wide range of operating parameters to insure that the stamps apply completely and permanently to a range of packaging materials. This wide range test method also insures the high quality application of stamps on stamping machines potentially misadjusted or in disrepair. Sekuworks is confident that our stamps will perform equal to or better than any thermal stamp system available.

It was Sekuworks goal to develop a stamp that would have excellent transfer and superior adhesion. In order to allow for a smooth transition Sekuworks developed a stamp with a wide range of parameters. We tested at multiple

facilities on all types of equipment and cellophanes. A list of testing areas is provided below along with the test results.

**Red Stamp:** We tested at Red Stamp in Michigan. This was our first stamping tests and although we had positive transfer results we discovered an adhesion issue at Keilson with the flap closures and that prompted an adhesive change.

**Keilson:** witnessed by the State, Ohio Taxation, and the Wholesalers board. The results of the trial prompted an adhesive change on our part. Although the stamp transferred it was the opinion of the group that improvements needed to be made in the adhesion are. Sekuworks re-formulated.

**Keilson:** witnessed by The State of Ohio, Taxation, and the Wholesalers Board. This was with a new transfer adhesive. The results were positive with excellent transfer and superior bond. The test was performed on the V.L.T. 10 machine from United Silicone and stamps at a rate of 100 cartons per minute. We also tested on a very old machine and had positive results that same day.

**Dittman Adams:** witnessed by The State of Ohio, Ohio Taxation and the Wholesalers board with positive results on Red Stamp equipment. Model number CSU capable of 100 cartons per min.

**Miami Cigar:** No State representation. We wanted to cover all bassettes so we tested on a mid range stamp machine from United Silicone. The test was arranged by the Wholesalers Board. The test was positive.

**J.E.S. Wholesale:** This test was arranged by the State at our request. This wholesaler uses older equipment and produces product with generic cellophanes. We maintained the same results with excellent transfer and very good adhesion.

**E.B.Y. Brown.** With the help of the State, Taxation, Enforcement and the Wholesalers Board, we tested at EBY Brown which is the largest Wholesaler in the State of Ohio. This facility allows for a speed test and with large volumes. Inventory was arranged by Ohio Enforcement. The test was successful to the point that EBY Brown volunteered to be the first rollout facility in the State. The cartons were taken by enforcement for extensive testing. Enforcement gave Sekuworks a glowing recommendation in the market and the State qualified Sekuworks as a stamp provider of choice.

In order to make a smooth and easy transition for the Wholesalers Sekuworks developed a stamp with a wide range of stamping parameters. Sekuworks has developed an excellent working relationship with both United Silicone and Red Stamp. Technicians from both facilities were present at the initial testing sites. Sekuworks sent a team to introduce the Company to Tri-State Wholesalers Board at the annual meeting. We recognized from interaction with members that this was an area that was being slighted by the current provider. It was our goal to understand the issues they were having and develop processes or

information that would help them. We provided all the attendees with contact information and assured them of our teams support.

With the permission of the State we will be providing specifications and recommended stamping parameters with every order of stamps the State supplies to the Wholesalers. We are also, with the States permission, involved in the Wholesalers newsletters providing updates and encouraging communication. We realize that by teaming with not only the State but also enforcement and the Wholesalers it will allow for a smooth and seamless transition for all.

Sekuworks, Red Stamp and United Silicone have support teams and technicians available upon request. Sekuworks will become involved with your Wholesalers by attending meetings and providing each and every member with contact information with the approval from the Board and the State.

#### **H. Submittal Requirements**

Sekuworks understands this requirement and will comply accordingly.

#### **I. Accounting**

Sekuworks understands the requirement and can comply. All work in process and finished goods which includes plates, designs, films, etc. will be placed and locked inside our secure Vault. At the completion of the contract all materials used to produce the orders shall provided to the County or destroyed with the Counties approval.

During the production run a permanent process control record is used at every production process; from the press, to numbering, to finishing, to packing, and finally to storage. At the start point of each of these the production personnel will obtain a sign off from the Production Supervisor prior to start of their function. The operator will conduct periodic checks as determined by the quality manager and document on the process control sheet.

In all phases of our production Sekuworks has instituted a two sign off requirement and verification. During the run, samples are tested in our forensic lab to assure the State that the stamp is meeting the standards as specified by the contract. The Quality Control Manager then gives the production lead a sign off and authorization to continue with the production process. If at the time of production for any reason the material does not pass inspection it is removed from the production line, clearly marked as non-compliant, reviewed at the production meeting and discussed before production can resume. Defective material is accounted for and stored in a designated locked area until it is destroyed per the specifications and guidelines established by the State. Upon completion of the job all raw materials not used are returned to the material handler for

verification and checked against usage records in our COSS reporting system.

- Line clearances are performed after every shift, and/or before a personnel change. This is documented by either a supervisor or a shift lead
- Partially completed and completed work is stored in our 18,000 cubic foot, class 5 vault. Class 5 is suitable for bank notes.(highest security)
- Non-conforming material is segregated and stored under lock and key

Sekuworks does not utilize any subcontractors to produce cigarette tax stamps, all work performed in-house at our N.A.S.P.O. Level 1 Registered and Certified facility in Harrison, OH.

In addition to the general stipulations required under NASPO, many operational precautions are taken to insure the ultimate security of Taxation's cigarette tax stamps:

- Full accountability of all materials, partially completed and completed cigarette tax stamps.
- As a course of normal business, all Taxation's work is segregated from other Sekuworks' customers.
- Raw materials are stored in controlled-limited access areas.
- Partially completed and completed work is stored in our 18,000 cubic foot, class 5 vault. Class 5 is suitable for bank notes.(highest security)
- Manufacturing techniques, formulas, and processes are kept secret and made available on a need-to-know basis.
- Employees follow a strict policy on the handling of materials, work-in-process, and completed work.
- Printing plates and tooling are kept in the vault when not in use.

#### **J. Packaging**

Sekuworks understands this requirement and will comply accordingly.

#### **K. Delivery**

Sekuworks handles many Federal, State and local government contracts requiring secure delivery. It is Sekuworks intention to ship via FedEx Custom Critical. This method utilizes GPS monitoring with real-time notifications during transport. It will be a dedicated truck, containing no other material, that is routed to avoid all high crime areas. The shipment is loaded at our facility and travels directly door-to-door. This delivery method is bonded and secured by both FedEx and Sekuworks.
