COOK COUNTY ORDINANCE CHAPTER 34, DIVISION 8 SECTION 34-260 to SECTION 34-300

I. POLICY AND GOALS

- A. It is the policy of the County of Cook to prevent discrimination in the award of or participation in County Contracts and to eliminate arbitrary barriers for participation in such Contracts by local businesses certified as a Minority Business Enterprise (MBE) and Women-owned Business Enterprise (WBE) as both prime and sub- contractors. In furtherance of this policy, the Cook County Board of Commissioners has adopted a Minority- and Women-owned Business Enterprise Ordinance (the "Ordinance") which establishes annual goals for MBE and WBE participation as outlined below:

Contract Type	Goals	
	MBE	WBE
Goods and Services	25%	10%
Construction	24%	10%
Professional Services	35% Overall	

- B. The County shall set contract-specific goals, based on the availability of MBEs and WBEs that are certified to provide commodities or services specified in this solicitation document. The MBE/WBE participation goals for each Contract are stated in Part I. A Bid, Quotation, or Proposal shall be rejected if the County determines that it fails to comply with this General Condition in any way, including but not limited to: (i) failing to state an enforceable commitment to achieve for this contract the identified MBE/WBE Contract goals; or (ii) failing to include a Petition for Reduction/Waiver, which states that the goals for MBE/WBE participation are not attainable despite the Bidder or Proposer Good Faith Efforts, and explains why. If a Bid, Quotation, or Proposal is rejected, then a new Bid, Quotation, or Proposal may be solicited if the public interest is served thereby.

GC-19 MINORITY AND WOMEN BUSINESS ENTERPRISES

COOK COUNTY ORDINANCE CHAPTER 34, DIVISION 8 SECTION 34-260 to SECTION 34-300 (con't.)

- C. To the extent that a Bid, Quotation, or Proposal includes a Petition for Reduction/Waiver that is approved by the Office of Contract Compliance, the Contract specific MBE and WBE participation goals may be achieved by the proposed Bidder or Proposer's status as an MBE or WBE; by the Bidder or Proposer's enforceable joint-venture agreement with one or more MBEs and/or WBEs; by the Bidder or Proposer entering into one or more enforceable subcontracting agreements with one or more MBE and WBE; by the Bidder or Proposer establishing and carrying out an enforceable mentor/protégé agreement with one or more MBE and WBE; by the Bidder or Proposer actively engaging the Indirect Participation of one or more MBE and WBE in other aspects of its business; or by any combination of the foregoing, so long as the Utilization Plan evidences a commitment to meet the MBE and WBE Contract goals set forth in (B) above, as approved by the Office of Contract Compliance.
- D. A single Person, as defined in the Procurement Code, may not be utilized as both an MBE and a WBE on the same Contract, whether as a contractor, subcontractor or supplier.
- E. Unless specifically waived in the Bid or Proposal Documents, this General Condition, GC-19; the Ordinance; and the policies and procedures promulgated thereunder shall govern. If there is a conflict between this GC- 19 and the Ordinance or the policies and procedures, the Ordinance shall control.
- F. A Contractor's failure to carry out its commitment regarding MBE and WBE participation in the course of the Contract's performance may constitute a material breach of the Contract. If such breach is not appropriately cured, it may result in withholding of payments under the Contract, contractual penalties, disqualification and any other remedy provided for in Division 4 of the Procurement Code at law or in equity.

II. REQUIRED BID OR PROPOSAL SUBMITTALS

A Bidder or Proposer shall document its commitment to meeting the Contract specific MBE and WBE participation goals by submitting a Utilization Plan with the Bid or Proposal. The Utilization Plan shall include (1) one or more Letter(s) of Intent from the relevant MBE and WBE firms; and (2) current Letters of Certification as an MBE or WBE. Alternatively, the Bidder or Proposer shall submit (1) a written Petition for Reduction/Waiver with the Bid, Quotation or Proposal, which documents its preceding Good Faith Efforts and an explanation of its inability to meet the goals for MBE and WBE participation. The Utilization Plan shall be submitted at the time that the bid or proposal is due. **Failure to include a Utilization Plan will render the submission not Responsive and shall be cause for the CPO to reject the Bid or Proposal.**

A. MBE/WBE Utilization Plan

Each Bid or Proposal shall include a complete Utilization Plan, as set forth on Form 1 of the M/WBE Compliance Forms. The Utilization Plan shall include the name(s), mailing address, email address, and telephone number of the principal contact person of the relevant MBE and WBE firms. If the Bidder or Proposer submits a Bid or Proposal, and any of their subcontractors, suppliers or consultants, are certified MBE or WBE firms, they shall be identified as an MBE or WBE within the Utilization Plan.

1. Letter(s) of Intent

Except as set forth below, a Bid or Proposal shall include, as part of the Utilization Plan, one or more Letter(s) of Intent, as set forth on Form 2 of the M/WBE Compliance Forms, executed by each MBE and WBE and the Bidder or Proposer. The Letter(s) of Intent will be used to confirm that each MBE and WBE shall perform work as a subcontractor, supplier, joint venture, or consultant on the Contract. Each Letter of Intent shall indicate whether and the degree to which the MBE or WBE will provide goods or services directly or indirectly during the term of the Contract. The box for direct participation shall be marked if the proposed MBE or WBE will provide goods or services directly related to the scope of the Contract. The box for Indirect participation shall be marked if the proposed MBE or WBE will not be directly involved in the Contract but will be utilized by the Bidder or Proposer for other services not related to the Contract. Indirect Participation shall not be counted toward the participation goal. Each Letter of Intent shall accurately detail the work to be performed by the relevant MBE or WBE firm, the agreed dollar amount, the percentage of work, and the terms of payment.

GC-19 MINORITY AND WOMEN BUSINESS ENTERPRISES

COOK COUNTY ORDINANCE CHAPTER 34, DIVISION 8 SECTION 34-260 to SECTION 34-300 (con't.)

All Bids and Proposals must conform to the commitments made in the corresponding Letter(s) of Intent, as may be amended through change orders.

The Contract Compliance Director may at any time request supplemental information regarding Letter(s) of Intent, and such information shall be furnished if the corresponding Bid or Proposal is to be deemed responsive.

The Joint Venture Affidavit shall be submitted with the Bid or Proposal, along with current Letter(s) of Certification.

In the event a Bid or Proposal does not meet the Contract specific goals for MBE and WBE participation, the Bid or Proposal shall include a Petition for Reduction/Waiver, as set forth on Form 3. The Petition for Reduction/Waiver shall be supported by sufficient evidence and documentation to demonstrate the Bidder or Proposer's Good Faith Efforts in attempting to achieve the applicable MBE and WBE goals, and its inability to do so despite its Good Faith Efforts.

Failure to include Petition for Reduction/Waiver will render the submission not Responsive and shall be cause for the CPO to reject the Bid or Proposal.

III. REDUCTION/WAIVER OF MBE/WBE GOALS

A. Granting or Denying a Reduction/Waiver Request.

1. The adequacy of the Good Faith Efforts to utilize MBE and WBE firms in a Bid or Proposal will be evaluated by the CCD under such conditions as are set forth in the Ordinance, the policies and rules promulgated thereunder, and in the "Petition for Reduction/Waiver of MBE/WBE Participation Goals" – Form 3 of the M/WBE Compliance Forms.

Petition for Reduction/Waiver based upon factors including but not limited to: (a) whether sufficient qualified MBE and WBE firms are unavailable despite good faith efforts on the part of the Bidder or Proposer; (b) the degree to which specifications and the reasonable and necessary requirements for performing the Contract make it impossible or economically infeasible to divide the Contract into sufficiently small tasks or quantities so as to enable the Bidder or Proposer to utilize MBE and WBE firms in accordance with the applicable goals; (c) the degree to which the prices or prices required by any potential MBE or WBE are more than 10% above competitive levels; and (d) such other factors as are determined relevant by the Contract Compliance Director or the duly authorized Waiver Committee.
5. If the Contract Compliance Director or the duly authorized Waiver Committee determines that the Bidder or Proposer has not demonstrated sufficient Good Faith Efforts to meet the applicable MBE and WBE goals, the Contract Compliance Director or the duly authorized Waiver Committee may deny a Petition for Reduction/Waiver, declare the Bid or Proposal non-responsive, and recommend rejection of the Bid, Quotation, or Proposal.

A Contractor, during its performance of the Contract, may not change the original MBE or WBE commitments specified in the relevant Utilization Plan, including but not limited to, terminating a MBE or WBE Contract, reducing the scope of the work to be performed by a MBE/WBE, or decreasing the price to a MBE/WBE, except as otherwise provided by the Ordinance and according to the policies and procedures promulgated thereunder.

Failure to obtain an MBE or WBE replacement within 30 business days of the Contract Compliance Director's written approval of the removal of a purported MBE or WBE may result in the termination of the Contract or the imposition of such remedy authorized by the Ordinance, unless a written Petition for Reduction/Waiver is granted allowing the Contractor to award the work to a Person that is not certified as an MBE or WBE.

V. NON-COMPLIANCE

If the CCD determines that the Contractor has failed to comply with its contractual commitments or any portion of the Ordinance, the policies and procedures promulgated thereunder, or this GC-19, the Contract Compliance Director shall notify the Contractor of such determination and may take any and all appropriate actions as set forth in the Ordinance or the policies and procedures promulgated thereunder which includes but is not limited to disqualification, penalties, withholding of payments or other remedies in law or equity.

MBE and WBE firms shall be required to verify payments made by and received from the prime contractor.

Each entity reserves the right to determine the amount of goods, supplies, equipment or services it wishes to purchase under this Contract.

GC-38 FEDERAL CLAUSES

The following provisions apply to all Contracts which are funded in whole or in part with federal funds.

1. **Interest of Members of or Delegates to the United States Congress**

In accordance with 41 U.S.C. § 22, the Contractor agrees that it will not admit any member of or delegate to the United States Congress to any share or part of the Contract or any benefit derived therefrom.

2. **False or Fraudulent Statements and Claims**

- (a) The Contractor recognizes that the requirements of the Program Fraud Civil Remedies Act of 1986, as amended, 49 U.S.C. §§ 3081 et seq and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 C.F.R. Part 31, apply to its actions pertaining to the Contract. Accordingly, by signing the Contract, the Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, or it may make pertaining to the Contract, including without limitation any invoice for its services. In addition to other penalties that may be applicable, the Contractor also acknowledges that if it makes a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986, as amended, on the Contractor to the extent the Federal Government deems appropriate.

- (b) The Contractor also acknowledges that if it makes a false, fictitious, or fraudulent claim, statement, submission, or certification to the County or Federal Government in connection with an urbanized area formula project financed with Federal assistance authorized by 49 U.S.C. § 5307, the Government reserves the right to impose on the Contractor the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307(n)(1), to the extent the Federal Government deems appropriate.

3. Federal Interest in Patents

- (a) General. If any invention, improvement, or discovery of the Contractor is conceived or first actually reduced to practice in the course of or under the Contract, and that invention, improvement, or discovery is patentable under the laws of the United States of America or any foreign country, the Contractor agrees to notify County immediately and provide a detailed report.
- (b) Federal Rights. Unless the Federal Government later makes a contrary determination in writing, the rights and responsibilities of the County, Contractor, and the Federal Government pertaining to that invention, improvement, or discovery will be determined in accordance with applicable Federal laws and regulations, including any waiver thereof. Unless the Federal Government later makes a contrary determination in writing, the Contractor agrees that, irrespective of its status or the status of any subcontractor at any tier (e.g., a large business, small business, non-profit organization, institution of higher education, individual), the Contractor agrees it will transmit to the Federal Government those rights due the Federal Government in any invention resulting from the contract.

4. Federal Interest in Data and Copyrights

- (a) Definition. The term "subject data" used in this section means recorded information, whether or not copyrighted, that is delivered or specified to be delivered under the Contract. Examples include, but are not limited, to: computer software, engineering drawings and associated lists, specifications, standards, process sheets, manuals, technical reports, catalog item identifications, and related information. The term "subject data" does not include financial reports, cost analyses, and similar information incidental to Contract administration.
- (b) Federal Restrictions. The following restrictions apply to all subject data first produced in the performance of the Contract. Except as provided in the Contract and except for its own internal use, the Contractor may not publish or publicly reproduce subject data in whole or in part, or in any manner or form, nor may the Contractor authorize others to do so, without the written consent of the County and the Federal Government, until such time as the Federal Government may have either released or approved the release of such data to the public.
- (c) Federal Rights in Data and Copyrights. In accordance with subparts 34 and 36 of the Common Rule, the County and the Federal Government reserve a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, for County or Federal Government purposes, the types of subject data described below. Without the copyright owner's consent, the County and Federal Government may not extend their license to other parties.
 - (1) Any subject data developed under the contract or subagreement financed by a federal Grant Agreement or Cooperative Agreement, whether or not a copyright has been obtained; and
 - (2) Any rights of copyright which the Contractor purchases ownership with Federal assistance.
- (d) Special Federal Rights for Planning Research and Development Projects. When the Federal Government provides financial assistance for a planning, research, development, or demonstration project, its general intention is to increase public knowledge, rather than limit the benefits of the project to participants in the project. Therefore, unless the Federal Government determines otherwise, the Contractor on a planning, research, development, or demonstration project agrees that, in addition to the rights in data and copyrights set forth above, the County or Federal

Government may make available to any third party either a license in the copyright to the subject data or a copy of the subject data. If the project is not completed for any reason whatsoever, all data developed under the project will become subject data and will be delivered as the County or Federal Government may direct. This subsection, however, does not apply to adaptations of automatic data processing equipment or previously existing software programs for the County's use whose costs are financed with Federal transportation funds for capital projects.

- (e) Hold Harmless. Unless prohibited by state law, upon request by the County or the Federal Government, the Contractor agrees to indemnify, save, and hold harmless the County and the Federal Government and their officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Contractor of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under the Contract. The Contractor will not be required to indemnify the County or Federal Government for any such liability arising out of the wrongful acts of employees or agents of the County or Federal Government.
- (f) Restrictions on Access to Patent Rights. Nothing contained in this section on rights in data will imply a license to the County or Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the County or Federal Government under any patent.
- (g) Application on Materials Incorporated into Project. The requirements of Subsections 2, 3, and 4 of this Section do not apply to material furnished by the County and incorporated into the work.

5. Records and Audits

Contractor will deliver or cause to be delivered all documents (including but not limited to all Deliverables and supporting data, records, graphs, charts and notes) prepared by or for the County under the terms of this Agreement to the County promptly in accordance with the time limits prescribed in this Contract, and if no time limit is specified, then upon reasonable demand therefor or upon termination or completion of the Services hereunder. In the event of the failure by the Contractor to make such delivery, then and in that event, the Contractor will pay to County reasonable damages the County may sustain by reason thereof.

The County and the Federal Government will have the right to audit all payments made to the Contractor under this Agreement. Any payments to the Contractor which exceed the amount to which the Contractor is entitled under the terms of this Agreement will be subject to set-off.

The Contractor will keep and retain records relating to this Agreement and will make such records available to representatives of the County and the Federal Government, including without limitation the sponsoring federal agency, other participating agencies, and the Comptroller General of the United States, at reasonable times during the performance of this Agreement and for at least five years after termination of this Agreement for purposes of audit, inspection, copying, transcribing and abstracting.

No provision in this Agreement granting the County or the Federal Government a right of access to records is intended to impair, limit or affect any right of access to such records which the County or the Federal Government would have had in the absence of such provisions.

6. Environmental Requirements

The Contractor recognizes that many Federal and state laws imposing environmental and resource conservation requirements may apply to the Contract. Some, but not all, of the major Federal Laws that may affect the Contract include: the National Environmental Policy Act of 1969, as amended, 42 U.S.C. §§ 4321 et seq.; the Clean Air Act, as amended, 42 U.S.C. §§ 7401 et seq. and scattered sections of 29 U.S.C.; the Clean Water Act, as amended, scattered sections of 33 U.S.C. and 12 U.S.C.; the Resource Conservation

and Recovery Act, as amended, 42 U.S.C. §§ 6901 et seq.; and the Comprehensive Environmental Response, Compensation, and Liability Act, as amended, 42 U.S.C. §§ 9601 et seq. The Contractor also recognizes that U.S. EPA, U.S. DOT and other agencies of the Federal Government have issued and are expected in the future to issue regulations, guidelines, standards, orders, directives, or other requirements that may affect the Contract. Thus, the Contractor agrees to adhere to, and impose on its subcontractors, any such Federal requirements as the Federal Government may now or in the future promulgate. Listed below are requirements of particular concern.

The Contractor acknowledges that this list does not constitute the Contractor's entire obligation to meet all Federal environmental and resource conservation requirements. The Contractor will include these provisions in all subcontracts.

- (a) Environmental Protection. The Contractor agrees to comply with the applicable requirements of the National Environmental Policy Act of 1969, as amended, 42 U.S.C. §§ 4321 et seq. in accordance with Executive Order No. 12898, "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations," 59 Fed. Reg. 7629, Feb. 16, 1994; U.S. DOT statutory requirements on environmental matters at 49 U.S.C. § 5324(b); Council on Environmental Quality regulations on compliance with the National Environmental Policy Act of 1969, as amended, 40 C.F.R. Part 1500 et seq.; and U.S. DOT regulations, "Environmental Impact and Related Procedures," 23 C.F.R. Part 771 and 49 C.F.R. Part 622.
- (b) Air Quality. The Contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. §§ 7401 et seq. Specifically, the Contractor agrees to comply with applicable requirements of U.S. EPA regulations, "Conformity to State of Federal Implementation Plans of Transportation Plans, Programs, and Projects Developed, Funded or Approved Under Title 23 U.S.C. or the Federal Transit Act," 40 C.F.R. Part 51, Subpart T; and "Determining Conformity of Federal Actions to State or Federal Implementation Plans," 40 C.F.R. Part 93. The Contractor further agrees to report and require each subcontractor at any tier to report any violation of these requirements resulting from any Contract implementation activity to the County and the appropriate U.S. EPA Regional Office.
- (c) Clean Water. The Contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. §§ 1251 et seq. The Contractor further agrees to report and require each subcontractor at any tier to report any violation of these requirements resulting from any Contract implementation activity to the County and the appropriate U.S. EPA Regional Office.
- (d) List of Violating Facilities. The Contractor agrees that any facility to be used in the performance of the Contract or to benefit from the Contract will not be listed on the U.S. EPA List of Violating Facilities ("List"), and the Contractor will promptly notify the County if the Contractor receives any communication from the U.S. EPA that such a facility is under consideration for inclusion on the List.
- (e) Preference for Recycled Products. To the extent practicable and economically feasible and to the extent that it does not reduce or impair the quality of the work, the Contractor agrees to use recycled products in performance of the Contract pursuant to U.S. Environment Protection Agency (U.S. EPA) guidelines at 40 C.F.R. Parts 247-253, which implement section 6002 of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. § 6962.

7. No Exclusionary or Discriminatory Specifications

Apart from inconsistent requirements imposed by Federal statute or regulations, the Contractor agrees that it will comply with the requirements of 49 U.S.C. § 5323(h)(2) by refraining from using any Federal assistance to support subcontracts procured using exclusionary or discriminatory specifications.

8. Cargo Preference - Use of United States Flag Vessels

The Contractor agrees to comply with U.S. Maritime Administration regulations, "Cargo-Preference -- U.S. Flag Vessels," 49 C.F.R. Part 381, and to include the clauses required by those regulations, modified as necessary to identify the affected parties, in each subcontract or subagreement involving equipment, materials, or commodities suitable for transport by ocean vessel.

9. Fly America

Section 14.c of the Master Agreement states that if the contract or subcontracts may involve the international transportation of goods, equipment, or personnel by air, the contract must require Contractors and subcontractors at every tier to use U.S.-flag air carriers, to the extent service by these carriers is available. 49 U.S.C. 40118 and 4 C.F.R. Part 52.

10. No Federal Government Obligations to Third Parties

The Contractor agrees that, absent the Federal Government's express written consent, the Federal Government will not be subject to any obligations or liabilities to any contractor or any other person not a party to the Grant Agreement or Cooperative Agreement between the County and the Federal Government which is a source of funds for this Contract. Notwithstanding any concurrence provided by the Federal Government in or approval of any solicitation, agreement, or contract, the Federal Government continues to have no obligations or liabilities to any party, including the Contractor.

11. Allowable Costs

Notwithstanding any compensation provision to the contrary, the Contractor's compensation under this Contract will be limited to those amounts which are allowable and allocable to the Contract in accordance

with OMB Circular A-87 and the regulations in 49 C.F.R. Part 18. To the extent that an audit reveals that the Contractor has received payment in excess of such amounts, the County may offset such excess payments against any future payments due to the Contractor and, if no future payments are due or if future payments are less than such excess, the Contractor will promptly refund the amount of the excess payments to the County.

12. Trade Restrictions

Contractor certifies that neither it nor any Subcontractor:

- (a) is owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms published by the Office of the United States Trade Representative (USTR);
- (b) has knowingly entered into any contract or subcontract with a person that is a citizen or national of a foreign country on said list, nor is owned or controlled directly or indirectly by one or more citizens or nationals of a foreign country on said list;
- (c) will procure, subcontract for, or recommend any product that is produced in a foreign country on said list.

Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR 30.17, no Notice-to-Proceed will be issued to an entity who is unable to certify to the above. If Contractor knowingly procures or subcontracts for the supply of any product or service of a foreign country on said list for use on the project, the USDOT may direct, through the County, cancellation of the Contract at no cost to the Government.

Further, Contractor agrees that it will incorporate this provision for certification without modification in each subcontract. Contractor may rely on the certification of a prospective Subcontractor unless it has knowledge that the certification is erroneous. Contractor will provide immediate written notice to the County if it learns that its certification or that of a Subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. Each Subcontractor must agree to provide written notice to Contractor if

at any time it learns that its certification was erroneous by reason of changed circumstances. Nothing contained in the foregoing will be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision.

The knowledge and information of the Contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code, Section 100.

13. Contract Work Hours and Safety Standards Act

If applicable according to their terms, the Contractor agrees to comply and assures compliance with sections 102 and 107 of the Contract Work Hours and Safety Standards Act, as amended, 40 U.S.C. §§ 327 through 333, and implementing U.S. DOL regulations, "Labor Standards Provisions Applicable to Contracts Governing Federally Financed and Assisted Construction (also Labor Standards Provisions Applicable to Nonconstruction Contracts Subject to the Contract Work Hours and Safety Standards Act)," 29 C.F.R. Part 5; and U.S. DOL regulations, "Safety and Health Regulations for Construction," 29 C.F.R. Part 1926. In addition to other requirements that may apply:

- (a) In accordance with section of the Contract Work Hours and Safety Standards Act, as amended, 40 U.S.C. §§ 327 through 332, the Contractor agrees and assures that, for the Contract, the wages of every mechanic and laborer will be computed on the basis of a standard work week of 40 hours, and that each worker will be compensated for work exceeding the standard work week at a rate of not less than 1.5 times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The Contractor agrees that determinations pertaining to these requirements will be made in accordance with applicable U.S. DOL regulations, "Labor Standards Provisions Applicable to Contracts Governing Federally Financed and Assisted Construction (also Labor Standards Provisions Applicable to Nonconstruction Contracts Subject to the Contract Work Hours and Safety Standards Act)," 29 C.F.R. Part 5.
- (b) In accordance with section 107 of the Contract Work Hours and Safety Standards Act, as amended, 40 U.S.C. § 333, the contractor agrees and assures that no laborer or mechanic working on a construction contract will be required to work in surroundings or under working conditions that are unsanitary, hazardous, or dangerous to his or her health and safety, as determined in accordance with U.S. DOL regulations, "Safety and Health Regulations for Construction," 29 C.F.R. Part 1926.

14. Veteran's Preference

In the employment of labor (except in executive, administrative, and supervisory positions), preference will be given to Vietnam-era veterans and disabled veterans. However, this preference may be given only where individuals are available and qualified to perform the work to which employment relates.

15. Copyright Ownership

Consultant and the County intend that, to the extent permitted by law, the Deliverables to be produced by Consultant at the County's instance and expense pursuant to this Agreement are conclusively deemed "works made for hire" within the meaning and purview of Section 101 of the United States Copyright Act, 17 U.S.C.

§101 et seq. (the "Copyright Act"), and that the County will be the copyright owner of the Deliverables and of all aspects, elements and components of them in which copyright can subsist.

To the extent that any Deliverable does not qualify as a "work made for hire," Consultant irrevocably grants, conveys, bargains, sells, assigns, transfers and delivers to the County, its successors and assigns, all right, title and interest in and to the copyrights and all U.S. and foreign copyright registrations, copyright applications and copyright renewals for them, and other intangible, intellectual property embodied in or pertaining to the Deliverables prepared for the County under this Agreement, free and clear of any liens, claims or other

encumbrances, to the fullest extent permitted by law. Consultant will execute all documents and perform all acts that the County may reasonably request in order to assist the County in perfecting its rights in and to the copyrights relating to the Deliverables, at the sole expense of the County.

Consultant warrants to County, its successors and assigns, that on the date of transfer Consultant is the lawful owner of good and marketable title in and to the copyrights for the Deliverables and has the legal rights to fully assign them. During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(2) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24,

1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

EXHIBIT II SCHEDULE OF COMPENSATION

Mansfield Oil Company Pricing Form

Fuel & Fuel Delivery Pricing

Mansfield Oil Company of Gainesville, Inc. offers the following not to exceed differentials on all products listed corresponding to their local OPIS Index City Daily or Weekly OPIS Gross Contract Average price per gallon (US) or liter (Canada) where each product is available. All taxes will be passed through as a line item. All transportation costs and delivery fees, as incurred, will be passed through at cost.

**Pricing on products is based on availability in the OPIS index city at time of ordering. While Mansfield has listed the most widely used products, this list is not fully exhaustive as it would be impractical to list every possible existing product. Further, new products are added to markets over time and may be dependent upon seasonality and regulations. Mansfield will work with participating agencies to ensure the appropriate product is purchased. Mansfield is willing to discuss offering those products at similar rates not to exceed differentials as proposed below.

ELECTRONIC PAYABLES PROGRAM ("E-PAYABLES")

OFFICE OF THE COOK COUNTY COMPTROLLER
ELECTRONIC PAYABLES PROGRAM ("E-PAYABLES")

FOR INFORMATION PURPOSES ONLY

This document describes the Office of the Cook County Comptroller's Electronic Payables Program ("E-Payables").

If you wish to participate in E-Payables, please contact the Cook County Comptroller's Office, Accounts Payable, 118 N. Clark Street, Room 500, Chicago, IL 60602.

DESCRIPTION

To increase payment efficiency and timeliness, we have introduced E-Payables program, a new payment initiative to our accounts payable model. This new initiative utilizes a Visa purchasing card and operates through the Visa payment network. This is County's preferred method of payment and your participation in our Visa purchasing card program will provide mutual benefits both to your organization and ours.

As a vendor, you may experience the following benefits by accepting this new payment type:

- Improved cash flow and accelerated payment
- Reduced paperwork and a more streamlined accounts receivable process
- Elimination of stop payment issues
- Reduced payment delays
- Reduced costs for handling paper checks
- Payments settled directly to your merchant account

There are two options within this initiative:

1. Dedicated Credit Card – "PULL" Settlement

For this option, you will have an assigned dedicated credit card to be used for each payment. You will provide a point of contact within your organization who will keep credit card information on file. Each time a payment is made, you will receive a remittance advice via email detailing the invoices being paid. Each time you receive a remittance advice, you will process payments in the same manner you process credit card transactions today.

2. One-Time Use Credit Card – "SUGA" Settlement

For this option, you will provide a point of contact within your organization who will receive an email notification authorizing you to process payments in the same manner you process credit card transactions today. Each time payment is made, you will receive a remittance advice, via email, detailing the invoices being paid. Also, each time you receive a remittance advice, you will receive a new, unique credit card number. This option is ideal for suppliers who are unable to keep credit card account information on file.

FAMILIAL RELATIONSHIP DISCLOSURE PROVISION

Nepotism Disclosure Requirement:

Doing a significant amount of business with the County requires that you disclose to the Board of Ethics the existence of any familial relationships with any County employee or any person holding elective office in the State of Illinois, the County, or in any municipality within the County. The Ethics Ordinance defines a significant amount of business for the purpose of this disclosure requirement as more than \$25,000 in aggregate County leases, contracts, purchases or sales in any calendar year.

If you are unsure of whether the business you do with the County or a County agency will cross this threshold, err on the side of caution by completing the attached familial disclosure form because, among other potential penalties, any person found guilty of failing to make a required disclosure or knowingly filing a false, misleading, or incomplete disclosure will be prohibited from doing any business with the County for a period of three years. The required disclosure should be filed with the Board of Ethics by January 1 of each calendar year in which you are doing business with the County and again with each bid/proposal/quotation to do business with Cook County. The Board of Ethics may assess a late filing fee of \$100 per day after an initial 30-day grace period.

The person that is doing business with the County must disclose his or her familial relationships. If the person on the County lease or contract or purchasing from or selling to the County is a business entity, then the business entity must disclose the familial relationships of the individuals who are and, during the year prior to doing business with the County, were:

- its board of directors,
- its officers,
- its employees or independent contractors responsible for the general administration of the entity,
- its agents authorized to execute documents on behalf of the entity, and
- its employees who directly engage or engaged in doing work with the County on behalf of the entity.

Do not hesitate to contact the Board of Ethics at (312) 603-4304 for assistance in determining the scope of any required familial relationship disclosure.

Additional Definitions:

"Familial relationship" means a person who is a spouse, domestic partner or civil union partner of a County employee or State, County or municipal official, or any person who is related to such an employee or official, whether by blood, marriage or adoption, as a:

25	Sales force.	Sourcewell and participating entities can feel confident they are partnering with North America's largest delivered fuel supplier and agency fueling needs will be managed and guided by reliable and experienced industry professionals who are focused on building successful relationships between agency organizations and Mansfield. Mansfield's total sales force is comprised of over 60 knowledgeable professionals spread over the Enterprise Sales team – which focuses on term contracts and Mansfield's full suite of fuel management solutions – and a Spot Sales team focused on those customer's interested in shorter term deals. In addition to these sales teams, Mansfield also has Product Line Managers who support our customers and sales team across Mansfield's varying degrees of fuel management related-services product offerings as further detailed below. The Government Sales team is part of the broader Enterprise Sales group and is specifically dedicated to Federal, State, Local, and Educational sales and account management. This team would be responsible for managing the contract with Sourcewell and any participating agencies. The Government Sales and Account Management teams are regionally focused with expertise in the fuel markets they manage; accordingly, the entire team may support participating agencies under this contract. However, Mansfield would dedicate a lead salesperson – in conjunction with the VP, Government Sales – to oversee the Sourcewell relationship. Mansfield also has a strong Commercial & Industrial (C&I) Enterprise Sales team focusing on private sector fuel sales across various industries. If any Commercial customers are interested in utilizing this cooperative contract these C&I salespeople would work closely with the lead government salesperson to facilitate those conversations. Mansfield's Product Line Managers help support the sales staff for products like risk management fuel hedging, fleet cards, diesel exhaust fluid (DEF), fuel equipment systems and services, fuel quality, etc. as an added layer of support offered to customers. These Product Line Managers are subject matter experts in their field and work closely to ensure Mansfield tailors the right solution for each customer. Mansfield has a dedicated Canadian sales team that supports both C&I and Government sales in that country who would work closely with the lead salesperson to support Canadian based customers. Lastly, Mansfield also has a comprehensive spot sales team who's focus is on shorter term contracts. For some customers in both the government and commercial channels this is a common way to purchase fuel and Mansfield has a team tailored to that offering.
26	Dealer network or other distribution methods.	Under this Sourcewell contract, participating agencies will always deal with Mansfield directly as their vendor. However, it's important to note that Mansfield's ability to distribute fuel across North America is achieved through the company's proprietary DeliveryONE network. Mansfield brought together 1,500 transportation partners across the U.S. and Canada in one single network to serve our customers. From transport fuel deliveries, mobile fleet fueling, tank wagon fuel deliveries, diesel exhaust fluid (DEF), and more, Mansfield's DeliveryONE network has the coverage, reliability, and flexibility to handle the most demanding requirements while offering "local service, nationwide." The DeliveryONE network is unique in that no one delivered fuel supplier has company-owned fuel transportation capacity across the entire U.S. and Canada. Accordingly, Mansfield worked over decades to bring together the most reliable local and regional transportation companies – in addition to Mansfield's own trucking assets – to create a network that offers service in all major markets with access to all commercial fuel terminals throughout the U.S. and Canada. In addition to providing transportation capability for Mansfield, the 1,500 companies operating as part of Mansfield's DeliveryONE network can act as an extension of Mansfield's sales department by selling Mansfield fuel and fuel management services.

27	Service force.	Mansfield sales staff initiate the onboarding of any new contract and continue to work with customers throughout the life of the agreement ensuring agency strategic priorities are met. Additionally, Mansfield will assign a Customer Relationship Manager dedicated to each participating agency's account upon award. This position is responsible for managing the day-to-day relationship, acting as an advocate and ambassador within Mansfield, and as the first point of contact during ongoing operations. The Customer Relationship Manager works with internal teams to meet customer service requirements, monitoring the agreement to ensure accurate billing, to generate any needed reports, and handle other general customer service needs. Mansfield's operations teams are organized around customers and regional markets to balance optimal customer relationship oversight with market-based experience. Mansfield's fuel dispatch teams regularly communicate with local carriers regarding daily deliveries and any market conditions that might impact timely delivery. Mansfield's fuel supply and trading team is also structured regionally to enable market specialization in bulk fuel sourcing and contract negotiation. Mansfield's reliable nationwide supply network is backed by long standing relationships with all major and independent refiners. A team of optimization analysts, with the support of a proprietary sourcing program, balance supply and demand each day to ensure supply security with competitive cost. Dedicated carrier relations staff manage FTL transportation partners, negotiate delivery rates, as well as monitor freight market trends including advancing the data integration of Mansfield's supply and transportation network. Beyond direct Mansfield personnel, the DeliveryONE network also acts in service and support of Mansfield customers. The comprehensive North American coverage of the network allows for local support and redundancy in any given market so if the first or even second transportation option is unavailable due to capacity constraints then Mansfield can call on multiple other options to serve our customers. The company is also mindful of the flexibility needed to serve our diverse customer base ensuring that we have a variety of transportation options in most major markets including full transport, tank wagon, and mobile refueling capabilities as needed.
28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Customer orders are handled directly by Mansfield. Orders are typically received via email or phone with Mansfield offering 24/7/365 customer service coverage. Mansfield has also recently deployed online chat and ordering via the company's proprietary FuelNet portal, creating yet another ordering option for customer personnel. Deliveries are typically made within 24-48 business hours after order placement depending on customer needs and market conditions. No matter the method used to place orders, entry is handled by Mansfield's dedicated Customer Service team to ensure order accuracy. Any agreed upon product changes made during the contract year – such as those to address cold weather operability – will occur on a scheduled basis coordinated with customer operations to ensure no errant dispatches. All orders are reviewed daily by Mansfield's Customer Service and Dispatch teams to ensure information is correctly transmitted and accepted by Mansfield's delivery partners. Mansfield has organized its dispatch team into five geographic regions, each staffed with regional experts, to facilitate tailored expertise in every North American Market. The strong relationships these regional teams develop with Mansfield's carrier partners ensure Mansfield customers' fuel deliveries are treated with the highest priority. This group dispatches over 1.1 million deliveries scheduled annually across Mansfield's customer base. In addition to customer will call orders, Mansfield offers inventory management services to ensure automatic reordering of fuel without requiring any action by the customer; this allows agency staff to focus on other priorities. Mansfield can install the necessary equipment, typically for a nominal monitoring charge, for tanks with automatic tank gauges or utilize manually collected tank inventory levels from site personnel. Mansfield uses agreed-upon business rules to manage site inventory, including minimum safety stock, end-of-month inventory targets, secondary product levels, minimum delivery quantities, hours of operations, holidays, and more. Mansfield would also leverage historical data, factoring in established business rules, and schedule deliveries accordingly. Mansfield's regionally organized Inventory Management team tracks local market insights, including basis price changes and supply availability. This dedicated team manages 4,000 tanks across the U.S. and Canada.
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises. 36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Mansfield utilizes a wide array of digital mediums for enhancing marketing effectiveness: Social Media - with over 13,000 followers, Mansfield is a thought leader on social media and can drive traffic to the Sourcewell contract via posts and updates on LinkedIn, Twitter, and Instagram. Search engine optimization: Mansfield invests in search engine optimization and our website ranks on page 1 across several industry related keywords. As part of our email and digital market efforts, Mansfield can offer participating and prospective agencies access to our free fuel newsletter, FUELSNews, which contains market trend information, tips and tricks for improving purchasing, and more. This publication is distributed to 6,000+ subscribers daily and can also be found on the web at https://mansfield.energy/market-news. Mansfield often runs articles on purchasing best practices where the Sourcewell contract could be featured throughout the year. Online Webinars - Mansfield engages with potentials on webinars and tracks interactions during the event, providing more details that can help move a deal forward. Mansfield already hosts a regular webinar cadence on market news and purchasing best practices where the Sourcewell contract could be incorporated. Customer Relationship Management - Mansfield uses Dynamics CRM to track customer interactions and keep deals moving forward, to ensure that no customer ever falls through the cracks. The company also has a vast database of customer contacts and potentials that are candidates for the Sourcewell contract. Virtual Meeting Platforms - Mansfield sales representatives use MS Teams, Zoom, Webex and other platforms to connect virtually with customers.	*
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Mansfield would take a collaborative approach with Sourcewell to promote the RFP with understanding that the majority of effort be undertaken by Mansfield. Our marketing and sales efforts will be communicated and coordinated with Sourcewell for mutual benefit, including the potential for joint press releases, shared social media content, and more. Mansfield believes such an approach will amplify the visibility of this new contract. Beyond coordinated marketing, a Sourcewell award will have dedicated sales representative responsible for pursuing new business and reaching out to potential prospects on a 1-to-1 basis. In the fuel space, this outside sales approach is necessary given the complexity of customer fuel programs and the need for a collaborative partnership to solve tough fuel problems. Cooperative contracts are a key component of Mansfield's government sales efforts; Mansfield's Government Sales and Account Management teams will be trained on the Sourcewell contract so that company representatives feel comfortable referring customers to Sourcewell whenever possible.	*
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	In the fuel industry, e-procurement ordering is not common due to the complex and volatile nature of fuel sales. Fuel management programs are typically complex and our sales process is solutions based which lends procurement conversations to in-person meetings and phone or email messaging. That said, once a customer is onboarded, individual orders may be placed on Mansfield's FuelNet portal for fuel and DEF products in the US. Discovery work is underway to continue finding new and easier ways for customers to purchase more products online and in Canada.	*

39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Mansfield's commitment to customer education and support is unmatched within the fuel industry. Mansfield offers fuel industry training through a variety of avenues including our Daily FuelsNews publication which covers industry news and purchasing best practices; the company's regular Webinar cadence which covers fuel market updates and fuel management program best practices; white papers and case studies on our website www.Mansfield.Energy/Resources; and specialized, customer specific training in the form of Quarterly Business Reviews, lunch and learns, or other events. The latter guidance is hosted by the Mansfield Sales or Account Management team to cover customer specific training needs. This training is free or charge and is discussed with each customer during the onboarding process to ensure their specific needs are met. However training does not stop after onboarding, Mansfield offers an array of metrics and reporting options via FuelNet and Quarterly Business Reviews to discuss and recommend performance outcomes related to fuel spend reduction, transaction optimization, logistical recommendations, inventory management recommendations, delivery accuracy, and fuel and freight savings achievement.	*
40	Describe any technological advances that your proposed products or services offer.	Mansfield believes in taking cost and complexity out of the fuel supply chain with a focus and investment on technology. Mansfield wraps both enhanced services and transactional insights around every gallon through Mansfield's proprietary online customer portal, FuelNet. FuelNet is Mansfield's integrated online fuel management portal, providing instant access to view: - Invoices, PODs, & Transaction Data - Tax Summaries & Reporting - Online Ordering & Inventory Management - Fleet Card Administration FuelNet aggregates every facet of a fuel program into one simple reporting platform, enabling customers to manage their business efficiently and accurately from a single dashboard. Mansfield's proprietary FuelNet portal provides insight into transactional data around bulk fuel, LTL, retail, and DEF. Furthermore, Mansfield integrates retail and consigned fuel transactions into fuel delivery spend to consolidate billing and reporting within FuelNet's Fleet Console. Data can be aggregated at an enterprise level or by individual agency, all while providing dynamic filtering capability to drill down to specific locations, transactions, vehicles, and more. Access to timely and accurate operational information to support decision making has never been more important for fleet and fuel program managers. In addition to using the comprehensive analytics and fuel management tools, customers can also track and monitor data via the Reports Console which offers standard and customizable reporting options. FuelNet's Fuel Equipment Systems and Services module enables customers to poll and monitor tank inventory in real time, track repair and maintenance work orders for a specific location, or look at environmental compliance alarms and history. Mansfield has recently completed an initial round of updates to FuelNet's look and feel, with the next round of enhancements set to improve further upon the value that FuelNet delivers. Innovation is a constant focus for Mansfield as we help meet and exceed customer expectations around a best-in-class fuel management program.	*
41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Mansfield constantly seeks new ways to help our customers achieve their sustainability goals. From being an industry leader in the US and Canadian DEF markets, which offsets harmful NOx emissions, to supplying Biodiesel and Renewable Diesel, Mansfield is committed to helping customers lower their carbon emissions relative to petroleum based fuels. Mansfield is working with the largest fleets in North America to meet aggressive sustainability goals to lower carbon emissions. Higher ethanol blends in gasoline or increased biodiesel blends or renewable diesel use can offer significant lifecycle carbon emissions reductions versus petroleum diesel and even when compared to electrical vehicle options. Mansfield offers a robust suite of renewable diesel, biodiesel, and ethanol blends across the US and Canada.	*
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	As part of our commitment to the environment, the Mansfield corporate office is LEED Silver certified by the U.S. Green Building Council.	*

43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	Mansfield is committed to inclusivity and diversity and in its ordinary course of business strives to engage the services of Disadvantaged Business Enterprises and Small Business Enterprises as petroleum supply and delivery partners. At Mansfield, we believe that a diversity of viewpoints, experiences, and backgrounds creates long-term value for our customers and for the communities in which the company operates. While Mansfield is not a certified WMBE or SBE entity, Mansfield does work with a number of qualified WMBE or SBE partners nationally. Mansfield's Diverse Business Development (DBD) Program helps customers fulfill their Tier 1 and Tier 2 diversity spend requirements by giving unparalleled access to the fuel management capabilities of both Mansfield and its nationwide network of vetted DBE partners (MBE, WBE, DBE, SBE, SDVOSB, etc.). Mansfield offers the expertise and bandwidth necessary to provide comprehensive solutions while partnering with and strengthening DBE partners. Whether purchasing fuel in bulk or tank wagon quantities, buying retail or consigned – the DBE Program leverages Mansfield's operational support and experience to execute even the most complex fuel management strategies. By leveraging Mansfield's DBE fueling network, customers can be assured of receiving competitive fuel pricing, quality service, and industry-leading digital integration at every step.

44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Mansfield differentiates itself from competitors through its comprehensive service, consistent innovation, and broad solutions. SERVICE As the largest delivered fuel supplier in North America, Mansfield offers a robust and reliable supply and delivery of fuel and related services across all 50 US States and the 10 Canadian provinces. Mansfield maintains a broad portfolio of procurement optionality to ensure reliable supply and competitive pricing in every market. Throughout the US and Canada Mansfield's entire suite of supply options are utilized to meet customer needs. The variety and comprehensive coverage of supply points reduces Mansfield's dependency on any one local fuel supply option and enables an optimal balancing of fuel costs. Maintaining diverse procurement sources and contracts ensures reliability and performance during volatile periods due to refinery outages, pipeline and terminal downtime, or natural disasters. Mansfield's supply chain provides significant security through contracted supply yet enables a fast, flexible approach to take advantage of market opportunities. Mansfield maintains commercial access to all third-party supply terminals in North America. This allows Mansfield the opportunity to buy from multiple supply points and providers both in markets local to customer demand but also surrounding markets in case of emergency. Customers across the country have benefited from this redundancy and flexibility as evidenced over the many years of reliable Mansfield supply to government agencies and first responders through natural disasters, weather events, refinery downtime, and infrastructure interruptions. Equally expansive is Mansfield's carrier base through our unique DeliveryONE network which brings together 1,500 transportation partners across North America in one single network to serve our customers. This allows for redundancy in any given market so if the first or even second transportation option is unavailable due to capacity constraints then Mansfield can call on multiple other options to serve our customers. The company is also mindful of the flexibility needed to serve our diverse customer base ensuring that we have a variety of transportation options in most major markets including full transport, tank wagon, and mobile refueling capabilities as needed. Through the comprehensive DeliveryONE network Mansfield ensures safe and reliable transportation options are readily available to customers. INNOVATION Mansfield wraps both enhanced services and transactional insights around every gallon through Mansfield's proprietary online customer portal, FuelNet. FuelNet is Mansfield's integrated online fuel management portal, providing instant access to view: - Invoices, PODs, & Transaction Data - Tax Summaries & Reporting - Online Ordering & Inventory Management - Fleet Card Administration FuelNet aggregates every facet of a fuel program into one simple reporting platform, enabling customers to manage their business efficiently and accurately from a single dashboard. Mansfield's proprietary FuelNet portal provides insight into transactional data around bulk fuel, LTL, retail, and DEF invoices. Mansfield integrates retail and consigned fuel transactions to consolidate billing and reporting within FuelNet's Fleet Console. Data can be aggregated at an enterprise state level or by individual agency, all while providing dynamic filtering capability to drill down to specific locations, transactions, vehicles, and more. SOLUTIONS Mansfield's entire suite of fuel management solutions is unmatched in the industry. Beyond the supply and delivery of standard fuel products, Mansfield also offers supply and delivery of renewable fuels, Diesel Exhaust Fluid (DEF) supply and logistics, fuel price risk management, fleet cards, fuel systems and equipment, fuel quality and additives, emergency response programs, fuel data management, and consigned fuel. Table 9A: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
45	Do your warranties cover all products, parts, and labor?	Mansfield offers industry standard warranties.	*
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Mansfield fuel and services are warranted, but fuel can become tainted if it sits for too long (for various reasons) or a customer's tank is not properly maintained. Mansfield warrants the fuel will meet specifications upon delivery, but not that it will maintain the required specifications in perpetuity.	*
47	Will you cover warranty service for products produced by others that are part of your proposal, or are warranty issues typically passed on to the producer?	Mansfield warrants the fuel will meet specifications, regardless of the producer.	*
48	Describe any service contract options for the items included in your proposal.	Mansfield may contract our services with local commons carriers to deliver fuel products and local vendors to perform equipment services.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
49	Describe any performance standards or guarantees that apply to your services	Mansfield will deliver fuel products that meet federal, state, and local industry standards. Mansfield fuel products meet all ASTM industry and commercial pipeline standards for fuel quality.	*
50	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	Mansfield believes that regular communication, transparency, and performance measurement foster any relationship. Two-way communication allows all parties to be engaged and involved in the decision-making process throughout the contract term. Communication is perhaps the single most vital aspect to developing a successful partnership that eventually enables Mansfield customers to achieve their strategic priorities and avoid critical problems. Accordingly, Mansfield has developed a quality control and assurance plan consisting of several metrics: - Invoice Accuracy and Timeliness: Mansfield tracks every invoice for accuracy to ensure the customer receives an exact invoice. FuelNet automatically tracks invoice accuracy and timeliness by customer so that Mansfield self-reports its performance in this category. Example metrics tracked are: days to invoice, invoice credit/rebill %, specific reason code for invoice errors, etc. - Delivery/Operations Metrics: Track every delivery for timeliness to ensure no late deliveries, track loads rolled from one day to the next, customer runouts, inventory managed sites <10% inventory levels, etc. - Carrier Scorecard: Mansfield tracks carriers for delivery window compliance, spills, cross drops, and Compliance/Safety/Accountability reviews.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
51	Describe your payment terms and accepted payment methods.	Standard payment terms are Net 30 days from the date of invoice though Mansfield can accommodate other payment terms at the request of the customer. Additional savings or charges may apply. Acceptable payment methods are as follows: 1. ACH Payment 2. Wire Payment 3. Electronic Funds Transfer (EFT) Authorization Agreement 4. Check 5. Credit Card (Processing Fee will be Assessed)
52	Describe any financing options available for use by educational or governmental entities.	Financing options are available for all Mansfield customers and are handled on a case-by-case basis to determine what will work best for all parties involved. Mansfield will partner with Sourcewell participating entities to understand their needs and will present the best path forward. All financing options are contingent upon a credit approval process. In addition to offering financing opportunities, Mansfield's Consigned Fuel Program may be an appealing option for entities looking to free-up cashflow, obtain transaction-level reporting, and provide automatic accruals and cost distribution where necessary. The Consigned Fuel Program is tailored for savings goals and entity-specific requirements. Mansfield will help entities design a best-practice program, providing significant bulk fuel savings and accountability enterprise-wide. How the Mansfield Consigned Fuel Program Works: Mansfield owns the fuel inventory in a customer's fuel tanks and only bills the customer once it's pumped into the vehicle. With remote access to card readers and tank gauges, Mansfield inventory specialists track fuel levels to maintain adequate supply and tank compliance. Mansfield bills entities separately as they pump fuel into the vehicle, automatically delivering transaction details to support invoices. Agencies may allow other entities to use their tank or restrict access to just company-owned equipment, Mansfield can accommodate single or multi-agency billing on behalf of the customer. The program is streamlined, automated, and concise to help companies account for usage across multiple entities.
53	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	The Mansfield Team provides partners with two important standard transaction documents. The first is the Site Survey Form, which is provided to customers to understand as much about their physical fueling sites as possible. Mansfield wants to provide all customers with safe service, and a big part of that process is understanding the equipment and layout of each location. This form enables participating entities to identify site contacts, equipment on location, preferred delivery times, etc. In addition, Mansfield also provides customers with a Mansfield Order Form. While not required, this detailed form can be completed by site personnel when they'd like to schedule deliveries. Mansfield has the capabilities and the experience to remotely monitor fuel tanks and inventory manage locations with ease, however, if customers choose to have a more hands-on approach, the Mansfield Order Form provides them with everything they need to request their fuel. Please reference both forms attached in the Documents section of our response.
54	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Mansfield will accept purchases on general p-card programs at a fee of 3.5% based off the entire invoice amount.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can

be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
55	Describe your pricing model (e.g., quoted adjustment from index or benchmark, line-item, product-category percentage discounts, or a combination of methods). Upload your pricing materials (if applicable) in the document upload section of your response.	Mansfield proposes pricing fuel off the widely accepted benchmark OPIS index while pricing freight and transportation charges at cost as a pass through to the customer. Because delivery requirements vary by region, customer needs, and specific site requirements this pass-through approach allows for the most comprehensive market coverage across North America. For fuel, Mansfield can offer all available fuel products corresponding to a customer's local Daily or Weekly OPIS Gross Contract Average feed plus a not-to-exceed differential. The not-to-exceed differential varies depending on the supply and delivery method required for the fuel. The not-to-exceed differential for fuel via a full-size Transport truck (18-wheeler) will be billed at a participating entity's local OPIS Index City OPIS Gross Contract Average feed plus a one cent per gallon (or per liter in Canada) differential for the respective product*. The not-to-exceed differential for fuel via a Tankwagon truck will be billed at the participating entity's local OPIS Index City OPIS Gross Contract Average posting plus a ninety-nine cent per gallon (or per liter in Canada) differential for the respective product*. Potential discounts and price adjustments may be negotiated on a case-by-case basis with the entity that is joining the contract. For freight, Mansfield proposes a straight pass-through at Mansfield's costs of all transportation and freight charges for delivery. Please note that due to government regulations, Mansfield is only able to offer Renewable Diesel for transportation fuel use. Additionally, all Renewable Diesel is quoted for delivery in the same state as the origin terminal. *Unless otherwise agreed upon by Mansfield, Renewable Diesel fuel is to be priced off the respective CARB Ultra Low Sulfur Diesel or Ultra Low Sulfur Diesel index for the local OPIS Index City. At the time of the contract response, many cities either do not have a renewable diesel OPIS posting or there are too few suppliers considered in the index. Accordingly, industry standard is to price Renewable Diesel off the respective CARB Ultra Low Sulfur Diesel or Ultra Low Sulfur Diesel index. All taxes will be passed through as a line item. All delivery fees will be passed through as a line item.

56	If your pricing model includes quoted adjustment from index or benchmark, identify the applicable index(es) or benchmark(s) for Sourcewell Participating Entities by region, delivery method, and product type. Detailed pricing data is to be included in Proposer's pricing upload materials (including the stated index or benchmark, adjustment discount or increase, frequency of index or benchmark update [daily, weekly, etc.], delivery method alternative pricing, freight, additional charges, etc.) on all of the items that you want Sourcewell to consider as part of your RFP response.	Mansfield proposes pricing fuel off the widely accepted benchmark OPIS index while pricing freight and transportation charges at cost as a pass through to the customer. Because delivery requirements vary by region, customer needs, and specific site requirements this pass-through approach allows for the most comprehensive market coverage across North America. For fuel, Mansfield can offer all available fuel products corresponding to a customer's local Daily or Weekly OPIS Gross Contract Average feed plus a not-to-exceed differential. The not-to-exceed differential varies depending on the supply and delivery method required for the fuel. The not-to-exceed differential for fuel via a Tankwagon truck will be billed at the participating entity's local OPIS Index City OPIS Gross Contract Average posting plus a ninety-nine cent per gallon (or per liter in Canada) differential for the respective product*. Potential discounts and price adjustments may be negotiated on a case-by-case basis with the entity that is joining the contract. Please note that due to government regulations, Mansfield is only able to offer Renewable Diesel for transportation fuel use. Accordingly, the industry standard is to price Renewable Diesel off the respective CARB Ultra Low Sulfur Diesel or Ultra Low Sulfur Diesel index. All taxes will be passed through as a line item. All delivery fees will be passed through as a line item.	
57	If your pricing model includes line-item or product-category percentage discounts, quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range. Detailed pricing data is to be included in Proposer's pricing upload materials (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response.	Mansfield will pass along at cost (no markup or margin added) all freight charges and taxes; on the invoice the freight charges can either be billed as a line item or rolled up into the product cost. Because delivery requirements vary by region, customer needs, and specific site requirements this pass-through approach allows for the most comprehensive market coverage across North America. Estimated freight and tax quotes may be provided to each entity interested in participating in the contract, however, the actual cost of freight and taxes will be passed through at cost.	*
58	Describe any volume or quantity discounts or rebate programs that you offer.	There are no aggregate volume or quantity discounts or rebate programs. Any and all volume discounts will be discussed on a case-by-case basis with each participating entity. The quoted not-to-exceed price is applicable unless otherwise negotiated.	*

59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	For fleet cards associated with a customer's fuel management program, Mansfield offers a rebate to each participating agency of .85% off the retail fuel price. For high volume fleet card prospects, Mansfield may be able to offer a larger rebate but will never offer a rebate less than .85%. Mansfield offers fixed price fuel hedging and risk management. Because this pricing is dependent on the fuel market and specific customer needs at the time the quote is generated, Mansfield is unable to offer a price for this service in this RFP response. However, Mansfield will discuss pricing with each interested agency. For fixed price fuel hedging Mansfield is also willing to fix the customer's freight costs. The purchase of any fuel additives requested will be billed at cost plus \$.0050/gallon or liter. For bulk DEF deliveries over 250 gallons, Mansfield offers cost plus \$.10 per gallon or liter. Mansfield offers any other "sourced" products or related services at cost plus 15%.	*
60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like set-up, mandatory training, split-load or multiple drop site charges, unscheduled, expedited or emergency delivery fees, dye charges, or taxes. Identify any parties that impose such costs and their relationship to the Proposer.	All freight accessorial charges incurred such as split-deliveries (multiple drop site charges), pump-off fees, minimum freight fees (for orders under a full truckload), demurrage at customer sites, and expedited or emergency delivery fees will be passed along at cost to a participating agency. These fees are charged to Mansfield by local delivery subcontractors at negotiated rates and will be passed along at no mark up to an agency only as incurred during a delivery. The purchase of any fuel additives requested will be billed at cost plus \$.0050/gal or liter. All applicable taxes will be passed along and billed as a line item. Given the broad coverage of this contract and the numerous federal, state, and local taxes it's impractical to specifically list each potential tax.	*
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Mansfield utilizes a diverse network of 1,500 third-party delivery partners to ensure reliable and cost-competitive deliveries in every market. Mansfield's Carrier Relations team thoroughly vetts each of these partners to ensure safety, performance history, market operations and capacity, flexibility to adjust to market conditions, electronic capabilities, financial durability, and competitive pricing. Mansfield's Carrier Relations team frequently issues competitive bidding for the company's freight lanes and relies on an electronic bidding engine to procure freight. Since all base freight rates and associated delivery charges will be passed along at cost as incurred, this means customers will be charged the same negotiated rates that Mansfield receives from its carriers. Delivering nearly 3 billion gallons of fuel products per year, customers can rest assured that Mansfield receives extremely competitive pricing as a preferred vendor of its transportation partners.	*
62	Specifically describe freight, shipping, and delivery terms or programs applicable to Sourcewell Participating Entities in Alaska, Hawaii, and Canada.	Freight, shipping, and delivery terms or programs do not differ for participating entities in Alaska, Hawaii, and Canada. All freight charges, including the base rate and any accessorial fees incurred, will be billed at cost to participating agencies. Because delivery requirements vary by region, customer needs, and specific site requirements this pass-through approach allows for the most comprehensive market coverage across North America.	*

63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Beyond carrier coverage in all commercial fuel markets across North America, Mansfield is also mindful of the flexibility needed to serve our diverse customer base. Accordingly, the company ensures that we have a variety of transportation options in most major markets including full transport, tank wagon, and mobile refueling capabilities as needed. Mansfield offers delivery to a wide array of tanks from large bulk storage tanks all the way to smaller generator fills and mobile wet hosing directly to fuel vehicles. Additionally, given Mansfield's established history of supplying government entities and first responders, the company understands prioritizing fuel for essential services. Mansfield's standard Business Continuity Plan document – a copy of which is attached to this proposal – illustrates the thoroughness with which Mansfield approaches an impending event and will serve as operating protocol should any such event threaten customer fueling operations. Further, Mansfield has developed and managed emergency preparedness plans for customers nationwide and can work with participating agencies to tailor a program specific to their needs.	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
-----------	----------	------------

65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Over the course of its 65-year history Mansfield has successfully onboarded hundreds of government customers. Onboarding a new customer involves collaboration between agency stakeholders and Mansfield as both parties determine the optimal execution strategy. The success of a contract's transition will be determined in part by the cooperative communication between Mansfield and each participating agency. To initiate an onboarding, Mansfield convenes an internal onboarding meeting to review the scope of the negotiated agreement, align stakeholders on the requirements, and plan for execution based on the specifications of the contract. This meeting would include the key stakeholders outlined in this proposal, as well as the front-line staff responsible for cascading a customer's requirements across the organization. Mansfield has a prescriptive onboarding program which is overseen by the company's Governance team that handles and approves all customer inputs into the firm's ERP system. It is critical for the process to be followed in its entirety to ensure each customer is successfully onboarded. The process utilizes Microsoft Power Apps to push information and workflows through several Mansfield departments to: - Ensure Mansfield is providing a first-class customer experience. - Bring together all departments with a common goal and purpose to hold each other accountable. - Ensure the customer is onboarded properly with operational precision so that all ordering, dispatching, and billing processes are seamless. There are various steps in the process that must be followed: 1. Credit Application Initiation 2. Credit Review and Approval 3. CRM Assignment 4. Pre-Onboarding 5. Internal Onboarding Meeting 6. Onboarding Form Completion 7. Governance Approval 8. Tax Approval 9. Department Notifications 10. Price Letter Setups 11. 1/30/60/90 Day Customer Reviews The Mansfield Sales and Account Management teams work diligently to guarantee this process is followed and completed efficiently, which enables us to ensure all Sourcewell participating entities obtain the proper pricing. Additionally, Mansfield works with a number of entities who request specific reporting requirements and administrative fee payments - accordingly, Mansfield's Account Management team works closely with our Business Analytics data team to develop auto-generated reporting for each specific contract that needs to be tracked. Any new participating agency can simply be added to this report upon contract setup. This creates accurate and repeatable reporting capabilities to ensure the proper gallons are reported and administrative fees paid.
----	---	---

66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Mansfield believes that regular communication, transparency, and performance measurement foster any relationship. Two-way communication allows all parties to be engaged and involved in the decision-making process throughout the contract term. Communication is perhaps the single most vital aspect to developing a successful partnership that eventually enables Mansfield customers to achieve their strategic priorities and avoid critical problems. Accordingly, Mansfield has developed a quality control and assurance plan consisting of several metrics that can be summarized in the below buckets: - Invoice Accuracy and Timeliness: Mansfield tracks every invoice for accuracy to ensure the customer receives an exact invoice. FuelNet automatically tracks invoice accuracy and timeliness by the customer so that Mansfield self-reports its performance in this category. Example metrics tracked are days to invoice, invoice credit/rebill %, specific reason code for invoice errors, etc. - Delivery/Operations metrics: Track every delivery for timeliness to ensure no late deliveries, track loads rolled from one day to the next, customer runouts, inventory managed sites <10% inventory levels, etc. - Carrier Scorecard: Mansfield tracks carriers for delivery window compliance, spills, cross drops, and Compliance/Safety/Accountability reviews.	*
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. The administrative fee is calculated on total sales under the Contract and may be expressed as a percentage, per-unit or flat fee; it is not a line-item addition to the Participating Entity's cost of goods. (See the RFP and template Contract for additional details.)	Mansfield proposes a \$0.0050 per gallon (or per liter in Canada) administrative fee that the company will pay to Sourcewell for all fuel sold during the duration of this contract. Mansfield wants to ensure the success of this contract and believes a competitive, market based administrative fee is necessary to promote contract growth.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

75	Describe your ability to fuel a mixed fleet during the same route.	Mansfield has the resources and years of fuel industry experience to successfully fuel a mixed fleet during the same route. Given Mansfield's consultative approach, the Sales team will work with Sourcwell participating entities to determine their fueling needs and the best methodology for distributing fuel throughout their locations.	*
76	Describe any emergency fueling programs you offer.	As a fuel supplier to government, commercial, and retail clients throughout the United States and Canada, Mansfield maintains a thorough Emergency Response Program including redundant operations centers and data backup. When emergency situations occur, Mansfield is there to provide for its contractual customers. Mansfield can quickly mobilize fuel from non-impacted areas to long-haul into areas experiencing a natural disaster or supply disruption, leveraging its unmatched nationwide network of supply and transportation. In case of any unexpected event, Mansfield can rely on its broad fuel and freight procurement network to procure fuel throughout surrounding markets. Through its proprietary DeliveryONE network of over 1,500 transportation providers nationwide, Mansfield maintains multiple relationships with carrier partners in all major markets. If the primary carrier is ever unavailable, Mansfield can call upon a network of other providers to step in. This is especially important when natural disasters strike or unexpected supply options occur. When interruptions to the fuel supply chain happen, Mansfield has redundancy to overcome those challenges and keep customers supplied. Lastly, given Mansfield's established history the company understands prioritizing fuel for essential services. Mansfield's standard Business Continuity Plan document – a copy of which is attached in the Documents section – illustrates the thoroughness with which Mansfield approaches an impending event and will serve as operating protocol should any such event threaten agency fueling operations. Further, Mansfield has developed and managed tailored emergency preparedness plans for customers nationwide and can work with interested agencies to do the same.	*
77	Describe your carrier network.	Mansfield offers bulk fueling, tank wagon fills, and mobile refueling options with its vast network of third-party carriers to meet customers' transportation needs. Mansfield sells nearly 10 million gallons of fuel every day with a distribution network of 900 transport truck carrier partners, 600 tank wagon partners, and 140 mobile refueling organizations. Mansfield's Carrier Relations team thoroughly vets each of these partners to ensure operational excellence, safety, financial durability, and competitive pricing. Every delivery is tailored to the customer's exact specifications and monitored for safety and quality. This service network provides the redundancy and scale required to ensure Mansfield customers are never out of fuel.	*
