OFFICE OF THE CLERK OF THE CIRCUIT COURT OF COOK COUNTY

July 10, 2012

Ms. Maria de Lourdes Coss
Chief Procurement Officer
118 North Clark Street, Room 1018
Chicago, Illinois 60602

Dear Ms. Coss:

Please find attached Internal Requisition #25281184 (System Requisition #103808), in the amount of $1,999.00 for the Kentico Software Central Management Software (CMS) base website license.

Kentico Software LLC has proprietary rights to the Central Management Software (CMS) product and no other reseller is authorized to distribute it.

Thank you for your consideration in this matter.

Sincerely,

Dorothy Brown
Clerk of the Circuit Court

Cook County
Office of the Purchasing Agent

Sole Source Justification

General Information	Date: 7/6/2012
Unit/Department: Clerk of the Circuit Court, MIS Division	Phone No. 312-603-7785
Contact Name: Tony Vainikos	Email tzvainikos@cookcountycourt.com

Vendor Information	Requisition No. 103808
Name: Kenotic Software LLC	Purchase Order No.
Address: 379 Amherst St. #375 Nashua, NH 03063	Contract No.

Description. Please provide a description of the goods or services required, the duration or frequency of the requirement, and where will the services or goods be delivered.

The software product called Central Management Software (CMS) will provide the Office of the Clerk of the Circuit's Electronic Data Division with the tools to make enhancements to the Clerk's Office website whether in-house or offsite as needed.

Type. Please select one of the options and explain below.

☐ Single Source ☑ Proprietary/Copyright Restrictions ☐ Equipment Compatibility
☐ Patented Product ☐ Exclusive or Unique Capability ☐ Other, please explain

Explanation: Why is this product or service the only one that would satisfy the requirement(s)?

Due Diligence. Describe the due diligence performed that led to the conclusion that this is a sole source.

The Central Management Software (CMS) product was selected over other products because it offered many more pre-built customized modules that can be used right out the box and build upon to suit the functionality of the website along with our current compatible systems environment. Also Kentico Software LLC provides real time technical support as for other products had a limited timeframe to access technical support.

Department Recommendation	
Requestor: Tony Vainikos	Date: 7/6/2012
Department Head: Bridget Dancy	Date: 7/6/2012

Purchasing Agent Approval	
Signature: Maria di Lorenzo Cox	Date: 8/2/12 BA

Kentico

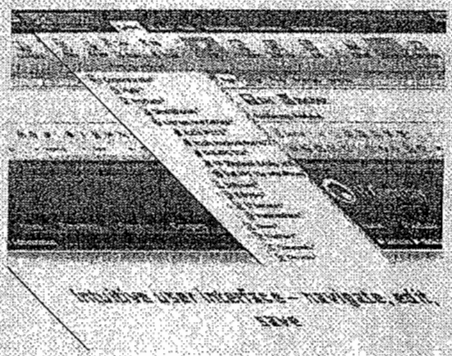
Easily Manage Your Website Content

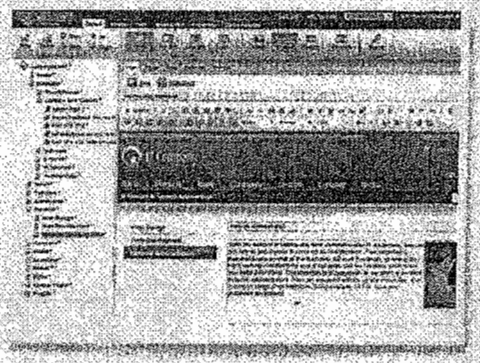
Editing your website with Kentico CMS is as easy as writing a document in Microsoft Word. You will love the intuitive interface as well as advanced features, such as workflow or multilingual support.



Try Kentico Today!

Home ▸ Product ▸ Content Management

Navigate - Edit - Save

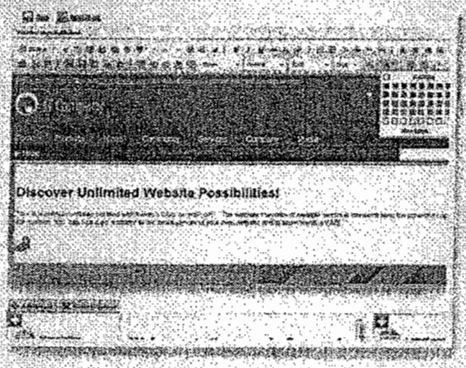


Updating your website with Kentico CMS is really intuitive. All pages are organized in a **tree hierarchy that reflects the site navigation**, so you can easily find the page you want to edit, make the changes and click Save. It's that easy!

WYSIWYG Editor

The built-in editor provides editors with all tools they need to create and update content:

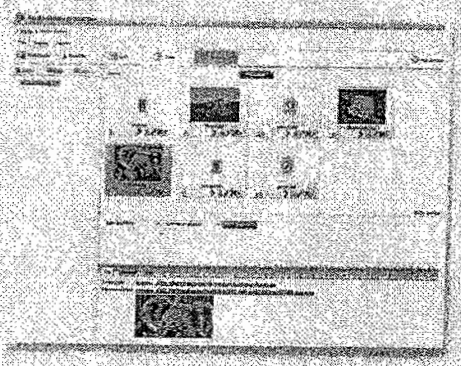
- Text formatting (bold, italics, color, font, headings, etc.)
- Insert image
- Insert movie
- Insert YouTube video
- Create link
- Insert on-line form, poll or other dynamic object
- Spell checker
- and many others



Moreover, the administrator can customize the editor toolbar based on the user role.

Learn more about WYSIWYG editor

Images and Media



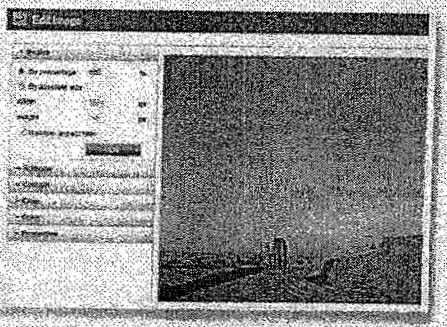
Inserting an image into the text is as easy as clicking a button, selecting the image and **resizing the image** as you need. You don't have to worry about image size, even if it comes directly from your camera, since Kentico will **automatically resize** it for the required dimensions. You can also upload and **publish movies, music and YouTube video**.

Learn more about images and media

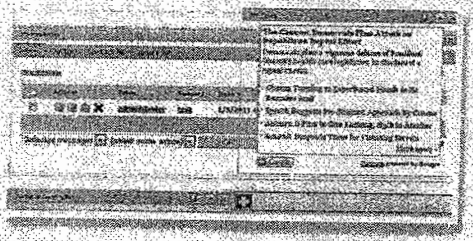
Built-in Image Editor

Kentico CMS comes with a built-in image editor that allows you to quickly **resize, rotate or crop image** and even convert it to another format. It means you don't have to use an external image editor for basic image manipulation.

Learn more about image editor



Widgets



Widgets empower the content editors so that they can change not only the text and images, but also the layout of the page and **add dynamic features, such as forms, newsletter subscription, banners, boxes with latest news, etc.** It gives them more flexibility since the editors can make these changes by themselves without waiting for a developer.

Learn more about widgets

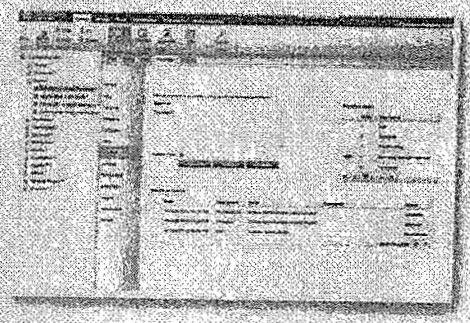
Rank Higher with Search Engine Optimization (SEO)

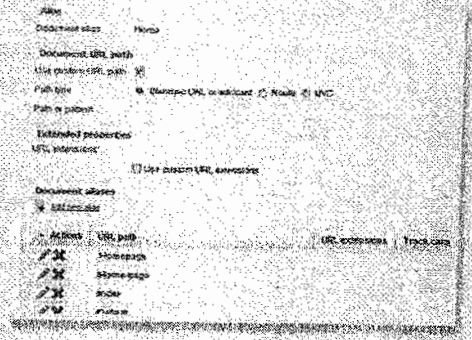
Kentico allows you to build websites that are highly optimized for search engines, such as Google, and rank higher in the results due to:

- **SEO friendly URLs** and URL aliases
- customizable page title, keyword and descriptions
- Google Sitemap
- customizable ALT and TITLE attributes
- headings H1, H2, etc. supported in the editor
- clean (X)HTML code and CSS-based menu
- fast page load

Learn more about SEO

Delegate Content Authoring without Losing Control





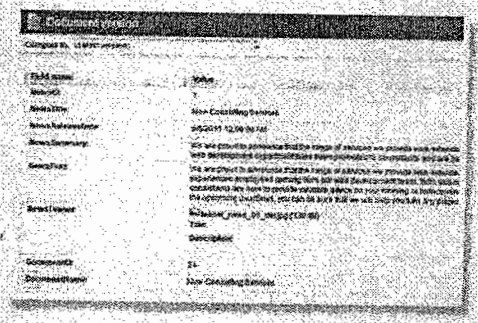
Web content is no longer created only in the marketing departments. With Kentico CMS, you can delegate the content management to other people while keeping control over what's published. It allows you to define **custom workflows** for particular site sections and content types and grant users with **permissions** for chosen documents. All changes are tracked and you can easily figure out who modified the content. These features allow you to keep control over content quality and brand consistency.

Learn more about workflow

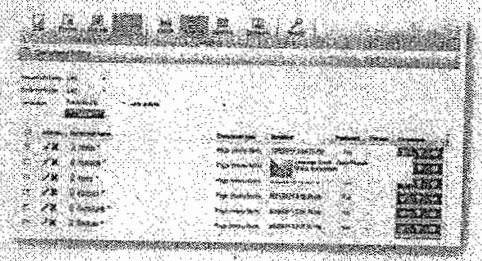
Versioning, Archiving and Recycle Bin

Kentico keeps track of all versions of the page as you update it, so you can **roll back** to a previous version or **compare versions**. Obsolete pages can be archived so that they are no longer displayed and you can view them later or re-publish them. Similarly to Microsoft Windows, the deleted documents are placed into a **recycle bin** and you can recover them.

Learn more about versioning



Go Global with Multilingual Content

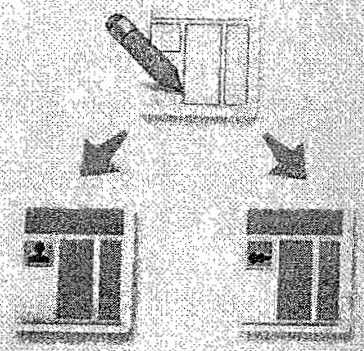


Kentico CMS allows you to easily create websites in **multiple languages**. Chinese, Russian, Arabic, Hebrew and any other language are no issue due to the support for **UNICODE** encoding and right-to-left text. Also, Kentico CMS is translated into many languages, so your colleagues in other countries can use it, too.

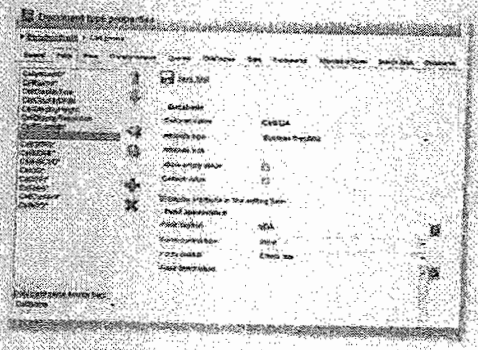
Learn more about multilingual content

Maintain Brand Consistency with Page Templates

Every page in Kentico CMS is based on some **page template** that defines the layout of the page. Then, the editors just enter the content into defined editable regions. It means the **content administrators cannot break the page design**. You can even decide what formatting features will be available for the editors so that they cannot for example change the font type or color.



Structured Content and Content Re-Use



If you need to publish structured documents with certain fields, such as news, press releases or product specifications, you can use **custom document types**. They give you full control over fields and their types and allow you to easily re-use the content across the website and display it using various **transformations**.

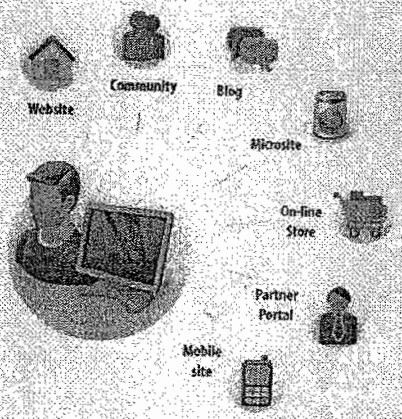
Learn more about structured content

Manage All Your Websites from a Single Point

With Kentico CMS, you can manage all your websites from a single point. Whether you need a corporate site, on-line store, microsite or on-line community, you can **quickly launch new sites**, maintain brand consistency and **share content across sites**.

With Kentico powerful **multi-site management**, you can manage all your sites from a single place and deploy new sites in the matter of hours.

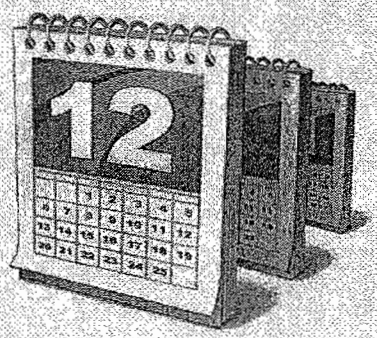
Learn more about multi-site management



Content Scheduling

Want to publish a press release just on Tuesday morning at 8:00am? No problem - just set the "Publish from" field. Want to replace a special offer from your website with a standard content just at midnight without sitting at your computer? No problem - just set the "Publish to" field. Kentico CMS will take care of it.

Metadata and Taxonomies



Kentico CMS also offers a rich system for organizing and describing your content:

- metadata including title, description and keywords
- categories
- tagging
- related documents

Beside these, you can use the standard **content tree hierarchy** to organize your content in the way it's displayed on the website or grouped to additional categories.

What is Kentico CMS?

Kentico CMS is an enterprise Web Content Management System and **Customer Experience Management System** that provides a complete set of features for building websites, intranets, community sites and e-commerce solutions on the Microsoft ASP.NET platform. It supports mobile websites, SEO, document
