Ms. Maria de Lourdes Coss
Chief Procurement Officer
Office of the Chief Procurement Officer
118 N. Clark - Room 1018
Chicago, IL 60602

RE: Assistance in expediting procurement

Dear Ms. Coss,

Attached you will find system requisition numbers for multiple vendors for the purchase of lab equipment for the support of United States Environmental Protection Agency (USEPA) Agency - Office of Air Quality Planning and Standards (OAQPS) Chemical Speciation Network program. This is new program is consistent with the current activities operated by the Cook County Department of Environmental Control's Air Monitoring Program to test and monitor harmful air pollutants.

The intent of the new Sunset Carbon Monitor Evaluation Project is to test new technology alternatives to current, costly organic and elemental carbon (OC/EC) testing techniques based on filter sampling. There are seven monitoring sites throughout the U.S. that will evaluate the new technology. Cook County Department of Environmental Control (CCDEC) has been chosen to participate due to the Department's experience in the management of air quality monitoring sites and because of the strategic location of our ComEd Lawndale site located at 7801 South Lawndale Avenue in Chicago.

Since early 2012, the Department has been part of project coordination meetings with OAQPS to discuss the needs of the program related to staff allocations and technical equipment requirements. As part of OAQPS's draft standard operating procedure (SOP) for the new project, OAQPS detailed a list of required supplies for the installation and operation of the carbon monitor instrumentation. As part of the procurement process, the Department requested quotes from the list of vendors stated in the SOP in addition to vendors the Department has historically used for equipment supplies to maintain the Department's air monitoring network. The Department received quotes from 10 vendors. Due to the unique nature of this new program, not all the vendors were able to provide a quote covering the pricing for each of the items in the quote request. The estimated price for the needed equipment totals \$2908.73. This activity is summarized in the attached spreadsheet titled - Sunset Carbon Monitor Vendor Quote Summary.

OAQPS is expecting CCDEC to implement this technology for October 2012, which is an extremely short window to secure a vendor, receive the equipment and install it; CCDEC is requesting your assistance in expediting the procurement of the equipment supplies which will enable CCDEC to participate in this program. Currently we are the only group selected by the OAQPS whom does not have their carbon monitor equipment installed and actively collecting data.

If you have any questions, please contact Les Young, Technical Services Manager at (708)865-5962, or me at (312)603-8200. Thank you so much in advance for your assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Deborah C. Stone". The signature is fluid and cursive, with the first name being the most prominent.

Deborah C. Stone
Director, Environmental Control
