Cook County Treasurer Maria Pappas,

My contract proposal for 12/01/2014 to 11/30/2015 will be for 1000 hours @ \$125.00 for a total of \$125,000.00.

List of projects I will be involved with during the year:

- Completion of the Cook County Electronic Warrant Book - replacing the current printed version with an electronic version.
 - 1) I will be using the data for tax years prior to 2012 that I have been capturing since the creation of the electronic warrant book system and create records that will be merged with the scanned data pages of the past 20 warrant book tax years in order to bring these tax years on-line.
- I will finalize and test the remaining procedures that I have put in place within various Cook County real estate processes to capture information on an ongoing basis.
- I will assist in making the electronic warrant book available to the public via World Wide Web.
- I will assist in making property tax balances visible on the electronic warrant book.
- I will act as a subject matter expert on the new integrated property tax system project.
 - 1) I will provide an understanding of mainframe logic and programming associated with the current legacy system.
 - 2) I will assist in identifying and locating data elements required by the new integrated property tax system.
 - 3) I will assist the project data migration team in their effort to transition data from the legacy systems to the new integrated property tax system.

The most important is completing work started on the Electronic Warrant Book. I will be working with the Cook County Treasurer's technical information group, the Cook County Clerk, Cook County Assessor and the Cook County Bureau of Technology to finish the process of converting the printed version of the Cook County Warrant Book to an electronic

format where it can be viewed by the public on personal computers within the County building and on the world wide web.

Benefits of an electronic warrant book:

CCTO will no longer have to post labels or stamps to the cumbersome books used today

It will include extra helpful information not currently posted to book.

The current balance of a property will be displayed without having to add and subtract certain transactions that are being done today with the printed version.

It will eliminate posting backlogs that exist today – providing more timely access to information

It will eliminate posting backlogs that exist today

It will reduce the time spent researching properties tax history

It will eliminate research requests to the County Clerk because information will be available online

Secondly, as the County moves to replace their 40+ year old property tax system, with a new integrated system. I will use my 30+ years of detail knowledge of mainframe operations and systems, to assist in the transition.

Thank you,
