Alternatively, if an individual has already been cleared by the County, further investigation may not be necessary. Deloitte shall provide OCA with documentation that supports the individual's status. During performance of this SOW, Deloitte will keep OCA apprised of all changes in personnel to ensure that performance is not delayed by compliance with the screening processes.

Before starting work under this SOW, a fingerprint check will be conducted, and the appropriate background investigation will be initiated. This allows the County to positively identify and make a suitability determination of the individual applying for access under this SOW. If at any point during this process, investigative results are unfavorably adjudicated, the individual will be denied admittance to work on this SOW, including both physical and/or logical access. If it is determined that the sensitivity of the County information that will be accessed under this SOW is extremely sensitive in nature, then the background investigation may need to be completed and adjudicated prior to granting Deloitte access.

Upon receipt of a favorable fingerprint check, access will be granted. In the event of a disagreement between Deloitte and the County concerning the suitability of an individual to perform work under this SOW, OCA shall have the right of final determination. This requirement must be incorporated into any subcontracts that require subcontractor's personnel to have regular and routine physical access to a County facility, or any unsupervised logical access to a County information system.

Physical Access: Ability to enter a County owned facility or County-leased space.

Logical Access: Ability to access County IT systems or databases - applies to everyone, whether within a County facility or by remote connectivity.

Upon the termination of employment of any Deloitte personnel working on this SOW, all County-furnished identification shall be returned to the issuing office. All on-site Deloitte personnel shall abide by the security requirements applicable to that site.

All Deloitte personnel attending meetings and working in other situations where their status is not obvious to third parties are required to identify themselves as such to avoid creating an impression in the minds of members of the public that they are County officials. They must also ensure that all documents or reports produced by Deloitte are suitably marked as Deloitte products and that Deloitte participation is appropriately disclosed.

Appendix I

I.0 Introduction

To assist OCA in fulfilling its evaluation and reporting responsibilities under the Cook County Auditor Ordinance, OCA is seeking the services of Deloitte to provide technical assistance on OCA's performance audits of CCC and AO's information security programs and practices.

I.1 Background

NIST Requirements

The County adopted NIST requirements for its information security program and practice. NIST documents and communicates required security standards through publications and recommended guidelines within NIST Special Publications (SPs). NIST publications provide agencies with a framework for developing appropriate confidentiality, integrity, and availability controls for agency information and information systems.

Technical Assistance for OCA's Audit Objective

The objective of OCA's performance audit will be to evaluate the effectiveness of CCC and AO's information security programs and practices, including CCC and AO's compliance with the County and NIST's information security policies, procedures, standards, and guidelines.

Deloitte's technical assistance for OCA's audits shall be performed in accordance with GAGAS.

Project Scope

The scope of this SOW is technical assistance for OCA's performance audits of CCC and AO's information security programs and practices for December 1, 2024, to November 30, 2025. The scope is to include technical assistance for two OCA audits with one OCA audit report of CCC's information security program and practices and one ACA audit report of AO's information security program and practices. Deloitte shall perform technical assistance to OCA's performance audits of CCC and AO's information security programs consistent with County and NIST requirements and prepare separate reports on the results.

Deloitte is required to develop the technical assistance scope consistent with the requirements of OCA. The technical assistance scope must include the documentation, implementation, monitoring, and effectiveness of internal controls.

Methodology

The independent evaluation will be based on Deloitte's technical assistance for OCA's performance audits of CVCC and AO's information security programs and practices consistent with County and NIST requirements. The technical assistance shall include testing the effectiveness of information security policies, procedures, and practices of a representative subset of CCC and AO's information systems.

Deloitte is required to develop the technical assistance methodology. The technical assistance methodology must be sufficient for Deloitte to address OCA's audit objective and (within the context of the audit objective and based on a representative sample of systems):

- Conclude on CCC and AO's compliance with County and NIST requirements based on an evaluation of CCC and AO's internal controls and testing a subset of CCC and AO systems for compliance with selected controls covered by NIST, and
- Conclude on the effectiveness of CCC and AO's implemented internal controls.

The technical assistance for OCA's audits shall include the testing of the effectiveness of information security policies, procedures, and practices of a representative subset of CCC and AO's information systems (within the context of the audit objective and representative sample systems).

The selected sample of systems shall be approved by OCA.

As part of the technical assistance documentation, Deloitte shall identify and document how the County defines an "CCC information system and an AO information system" including how CCC and/or AO define (1) controls, (2) physical hardware, (3) software, and (4) boundaries of an information system.

In addition, the methodology shall include fully developed findings¹ related to (1) CCC and AO's non-compliance of the County's internal controls described in formal policies and procedures, and (2) internal controls that CCC and AO implemented but that are not effective. Further, the methodology shall include an assessment of findings and recommendations reported in prior reports, if relevant. Deloitte shall have access to the full reports prepared in conjunction with prior audits.

Criteria

Deloitte shall base its technical assistance work for OCA's audits on security standards and guidelines issued by NIST; and other relevant criteria such as the County's policies and procedures, and accepted industry practices. Deloitte shall be responsible for following the versions of the guidance that are current at the time the work is performed; and as that guidance is updated to reflect new requirements that may arise.

¹ Findings consist of the following elements—Criteria, Condition, Cause, Effect, and Recommendation, as appropriate.

Project Management

Deloitte shall develop and maintain formal Project Management Plans (PMP) for the work described in this SOW. The plans shall include, at a minimum:

1. A Microsoft Project plan that identifies the tasks, assigned resources, costs, and project schedule.
2. An information and meeting request tracking plan.
3. A Project Budget that establishes ceiling amounts for the Planning Phase, Performance Phase, and Reporting Phase.
4. A contingency plan that describes Deloitte's plan in case of the loss of key personnel, significant delays in requested documents, task completion, or planned resource availability.
5. A plan for tracking issues and findings.

Deloitte shall designate one of its key personnel as the Project Manager to plan and manage tasks and resources to meet the project schedule. The Project Manager shall be responsible for activities including, but not limited to:

1. Developing and maintaining Deloitte's project management plan. Significant changes to the PMP, such as changing budget ceiling amounts for the phases of the project (e.g., Planning, Performance, Reporting, Metrics, etc.), need to be approved by OCA.
2. Tracking Deloitte's work under this SOW.
3. Serving as the point of contact and coordinator for communications between Deloitte and OCA.

Status Reporting and Meetings

Deloitte shall keep OCA's County Auditor or designee apprised of the status of their work throughout the period of performance of this SOW. Deloitte shall communicate via telephone or in person with OCA at least on a weekly basis to discuss the progress of the work and any findings prepared to date. Deloitte shall immediately notify OCA of any issues identified that may pose an operating or financial management problem, including potential fraud, waste, or abuse.

FAMILIAL RELATIONSHIP DISCLOSURE PROVISION

Nepotism Disclosure Requirement:

Doing a significant amount of business with the County requires that you disclose to the Board of Ethics the existence of any familial relationships with any County employee or any person holding elective office in the State of Illinois, the County, or in any municipality within the County. The Ethics Ordinance defines a significant amount of business for the purpose of this disclosure requirement as more than \$25,000 in aggregate County leases, contracts, purchases or sales in any calendar year.

If you are unsure of whether the business you do with the County or a County agency will cross this threshold, err on the side of caution by completing the attached familial disclosure form because, among other potential penalties, any person found guilty of failing to make a required disclosure or knowingly filing a false, misleading, or incomplete disclosure will be prohibited from doing any business with the County for a period of three years. The required disclosure should be filed with the Board of Ethics by January 1 of each calendar year in which you are doing business with the County and again with each bid/proposal/quotation to do business with Cook County. The Board of Ethics may assess a late filing fee of \$100 per day after an initial 30-day grace period.

The person that is doing business with the County must disclose his or her familial relationships. If the person on the County lease or contract or purchasing from or selling to the County is a business entity, then the business entity must disclose the familial relationships of the individuals who are and, during the year prior to doing business with the County, were:

- its board of directors,
- its officers,
- its employees or independent contractors responsible for the general administration of the entity,
- its agents authorized to execute documents on behalf of the entity, and
- its employees who directly engage or engaged in doing work with the County on behalf of the entity.

Do not hesitate to contact the Board of Ethics at (312) 603-4304 for assistance in determining the scope of any required familial relationship disclosure.

Additional Definitions:

“*Familial relationship*” means a person who is a spouse, domestic partner or civil union partner of a County employee or State, County or municipal official, or any person who is related to such an employee or official, whether by blood, marriage or adoption, as a:

FAMILIAL RELATIONSHIP DISCLOSURE PROVISION

Nepotism Disclosure Requirement:

Doing a significant amount of business with the County requires that you disclose to the Board of Ethics the existence of any familial relationships with any County employee or any person holding elective office in the State of Illinois, the County, or in any municipality within the County. The Ethics Ordinance defines a significant amount of business for the purpose of this disclosure requirement as more than \$25,000 in aggregate County leases, contracts, purchases or sales in any calendar year.

If you are unsure of whether the business you do with the County or a County agency will cross this threshold, err on the side of caution by completing the attached familial disclosure form because, among other potential penalties, any person found guilty of failing to make a required disclosure or knowingly filing a false, misleading, or incomplete disclosure will be prohibited from doing any business with the County for a period of three years. The required disclosure should be filed with the Board of Ethics by January 1 of each calendar year in which you are doing business with the County and again with each bid/proposal/quotation to do business with Cook County. The Board of Ethics may assess a late filing fee of \$100 per day after an initial 30-day grace period.

The person that is doing business with the County must disclose his or her familial relationships. If the person on the County lease or contract or purchasing from or selling to the County is a business entity, then the business entity must disclose the familial relationships of the individuals who are and, during the year prior to doing business with the County, were:

- its board of directors,
- its officers,
- its employees or independent contractors responsible for the general administration of the entity,
- its agents authorized to execute documents on behalf of the entity, and
- its employees who directly engage or engaged in doing work with the County on behalf of the entity.

Do not hesitate to contact the Board of Ethics at (312) 603-4304 for assistance in determining the scope of any required familial relationship disclosure.

Additional Definitions:

“Familial relationship” means a person who is a spouse, domestic partner or civil union partner of a County employee or State, County or municipal official, or any person who is related to such an employee or official, whether by blood, marriage or adoption, as a:
